

Travel Tour Solicitation

3152.5

The Board of Trustees wishes to ensure that the District does not engage in competition with commercial tour organizations and does not permit the classroom to become a place for tour solicitation.

No member of the District staff while on campus or at an authorized college function shall publicize, solicit for, or in any manner attempt to recruit students for privately sponsored travel tours.

Staff members or tour organizations may place paid advertisements in the student newspapers on the same basis as commercial organizations.
