

## **Health Program**

**AP 5091**

---

The health program at De Anza and Foothill Colleges will be structured along the following guidelines:

1. A physical environment which is conducive to good health and safety will be maintained.
2. A physical fitness program which will benefit the greatest number of students will be operated and participation encouraged.
3. Complete physical examinations will not be required of all students. There will be a physical examination adequate to determine the physical fitness of a student to be a member of an intercollegiate team (for practice or participation); certain majors may be required to take complete or partial physical examinations; and students with an apparent health problem may be required to take complete physical examinations as a condition of continued enrollment. Sight, hearing, and speech examinations may be given to all students.
4. All State laws pertaining to health instruction applicable to the community college will be enforced.
5. The administration will determine that appropriate accident insurance is carried at District expense for all those on athletic teams and all other students — day and evening, regular and summer session. The insurance is to cover on-campus and off-campus approved activities.
