2012/13 First Quarter Report

SUMMARY OF MAJOR CHANGES

The district has completed its financial analysis for the first quarter of operation (July 1, 2012-September 30, 2012). Enclosed in this document is a reporting for all of the funds the district maintains as authorized by the California Education Code. The short description and analysis at the beginning of each fund report explains the purpose of the fund and recent financial trends that may have changed from the adopted budget. Also included in this report is a supplemental information section that contains the State Quarterly Report (311Q). The analysis of the General Purpose Fund follows.

GENERAL PURPOSE FUND REVENUE

Revenue, Productivity and Enrollment Assumptions

Resident Enrollment

The governor's adopted budget this year included an assumption that the tax measure would pass in the November election, which would protect community colleges from further cuts and also provide future funding for backfill for late apportionment payments from the state (apportionment deferrals) and restoration/growth. As in the prior year, it includes a provision for mid-year cuts to be implemented as a workload reduction of 7.3% if the tax measure fails. All community colleges were advised to prepare for both outcomes. Foothill-De Anza Community College District's adopted budget was built assuming the worst-case scenario, or failure, of the tax package. If the governor's tax package passes we will adjust our revenue, FTES, and part-time faculty cost projections to reflect this positive outcome.

Under the current assumptions, we anticipate serving 31,376 resident and non-resident FTES. For resident enrollment, this number reflects 27,300 state-funded FTES impacted by the governor's adopted budget workload reduction of 7.3% FTES in 12/13, and reflects no additional restoration of FTES lost in fiscal year 10/11.

Due to the uncertain outcome of the November election, the colleges built their course schedules assuming that the tax package will pass and that full funding will be received from the state. However, as of this writing, both colleges have reported declines in their FTES when compared to last year's actuals. If this trend was to continue and the tax package was to pass, our overall decline in FTES may amount to as much as 6% at year-end. If the tax package fails, this decline would be offset by the workload reduction imposed by the state. In either case, we would still have to address the challenge of closing an ongoing deficit of roughly \$10 to 12 million.

Both colleges are closely monitoring enrollment to ensure student access and our ability to reach our enrollment goals under both the best- and worst-case scenarios. It is important to note that, if the tax measure passes, any decline in resident FTES below the funded base will be funded on a one-time basis, as SB361 provides for "stability funding" during the first year of decline. However, not reaching our FTES goal would erode our base funding on an ongoing basis and we would further need to adjust our fiscal year 13/14 goals to meet that challenge. We will update the Board of Trustees on our FTES trends and any changes to state strategies as the year progresses. No changes to projections have been made at this time.

Additional Mid-Year Cuts

Although our budget assumes failure of the tax package, additional factors could potentially erode our funding on a one-time basis. As reported at Adopted Budget, 11/12 was the fifth year in a row in which

we have seen a deficit factor applied to state apportionment. As the state's fiscal outlook is still uncertain and the fallout from Redevelopment Agency (RDA) dissolution remains uncertain, we expect that there may be a shortfall of state funding in fiscal year 12/13. A deficit factor of 1.5% has been included in our adopted budget in expectation of reduced state funding. Any shortfall above the budgeted deficit will need to be absorbed using one-time funds from the colleges and Central Services carryover.

Non-Resident Enrollment

Although we have not made any adjustments to our projections, enrollment in this student population is being carefully monitored. We currently estimate that we are on target with our projections and may exceed our budgeted revenue by approximately \$1 million for fiscal year 12/13. This projected new revenue is due to increased enrollment at both colleges. Since it is more volatile and dependent on many external factors, such as access to visas, exchange rates, etc., we will closely monitor our non-resident revenue throughout the year. With increased revenue, there will be additional expenses associated with serving an increased non-resident student population. We will revise our revenue, as well as corresponding expense estimates, in the second quarter when more data is available for analysis.

Productivity

We have not modified the productivity estimates since the adopted budget. For fiscal year 12/13, productivity is budgeted at 541 (WSCH/FTEF). The enrollment management teams are carefully monitoring student enrollment and course offerings to maximize access for students.

GENERAL PURPOSE FUND EXPENSE

Certificated Salaries

At this time, we are not estimating any changes to the Certificated Salaries category.

As in prior years, any float from vacant faculty positions will be used to hire part-time faculty and the remainder of unused funds, if any, will revert to the unrestricted fund balance.

Classified Salaries

At this time, we are not estimating any changes to the Classified Salaries category.

As in prior years, any float from vacant classified and management positions will be transferred to the colleges as additional one-time 'B' budget.

Benefits

Our self-insured medical benefits projections have not been modified, as we will not receive the first quarter analysis of claims experience until late October. We expect that there will be variances from what was budgeted at Adopted Budget due to a) new enrollment trends, b) closing out claims under the old benefits program administered by United Healthcare and c) a negotiated one-time reimbursement for an additional out-of-pocket deductible that was assessed twice as a result of the change in health care plans, for active employees and retirees who were previously enrolled in a United Healthcare PPO or EPO plan, and who enrolled mid-year in a CalPERS Anthem Blue Cross PPO plan (approximately \$333,000).

Any increases to the 12/13 budget or variances related to closing out old claims will be covered with one-time funds set aside in the Rate Stabilization Fund, currently estimated at \$10.6 million (see the Internal Service Fund for fund balances). We will report on any potential variances from our adopted budget in the second quarter report.

Supplies and Capital Outlay

At this time we are not estimating any changes in these expense categories.

Operating Expenses

Severe state cuts over the last few years have had a devastating impact on the district's operating budget. Even if the governor's tax package passes, we will not see any new revenue to offset our operating deficit in the next few years. Therefore, both colleges and Central Services continue to develop a strategic plan to buffer reductions in 'B' budget, as well as state cuts to the General Purpose Fund and categorical programs, using prior year 'B' budget carryover of \$13.6 million. We are currently estimating that approximately one-third of this carryover, or \$4.6 million, will be expended in fiscal year 2012/13 to backfill for critical program operations and expenditures. The remainder will be used strategically to close a portion of this year's operating deficit, to carry forward to fiscal year 2013/14 to backfill for cuts implemented in the last couple of years, and to pay for instructional and non-instructional support for students as well as general operating expenses (see Tables 1 and 2).

Contingency

This quarterly report reflects actions as of September 30, 2012. In the second quarter of 12/13, we will make a \$500,000 contribution to the unfunded post-employment medical liability as projected at Adopted Budget.

Post-Closing Adjustment to Fund Balance

As reported in our adopted budget document, we anticipated a post-closing entry to our 11/12 ending fund balance to account for our fair market value adjustment. The information needed to record the entry was not available at the time the adopted budget was presented to the Board of Trustees. As a result, the fair market value adjustment increased our 11/12 ending fund balance by \$273,194.

Fund Balance

The net change to fund balance is the result of the combination of increases and decreases to revenue and expense as explained in each line item noted above.

Based on all assumptions of revenue and expenses, the 12/13 ongoing adopted budget is forecast to have an operating deficit of \$11.9 million, which will be balanced with the strategic use of one-time funds and mid-year reductions (see Tables 1 and 2).

At Adopted Budget, a one-time Stability Fund of \$11.7 million was set aside, as designated by the Board of Trustees, for 1) partially closing the fiscal year 12/13 deficit (\$6.7 million), 2) the 13/14 Stability Fund (\$3 million), and 3) enrollment stimulus/restoration (\$2 million). In addition to the Stability Fund, we also have our 5% mandatory reserves of \$9.9 million. The colleges anticipate that they will carry forward approximately \$9 million of their designated carryover into fiscal year 2013/14 to fund critical expenditures and programs that are currently not sufficiently funded in the ongoing budget.

Given the state's current economic outlook and uncertain outcome of the November election, there is little doubt that new dollars, if any, will be allocated to solve our current deficit. Our current strategy is to protect as much of our fund balance as possible in order to react to potential mid-year reductions to 2012/13 revenue, and to allow for strategic implementation of reductions to the operating budget. We will keep the Board informed of important developments affecting reserves as the year progresses.

ALL FUNDS CHART

SELF-SUSTAINING Fund 115

Self-Sustaining funds, as the name implies, counterbalance operating expenditures against the revenues generated from various instructional arrangements. Not all related costs are allocated to these programs but, for those expenses that are charged, the programs are expected to generate income or use accumulated balances to cover them. Although budgets are used as a means to forecast and control revenue and expenditure activity, spending is solely dependent upon their ability to generate sufficient revenue to adequately support such operations.

Most accounts within this group have residual funds, and excess revenues over expenditures are available for use at the respective college's discretion. The residual funds are regarded as designated funds, which mean that, although the district regards them as restricted, they are actually unrestricted and are reported to the state as such. The Board of Trustees has the discretion to use the funds for any lawful purpose.

Current Status:

The changes to the Self-Sustaining Fund for the first quarter include transfers in from the Restricted and Categorical Fund for \$74,716 for MAA (Medical Administrative Activities), with corresponding increases to the operating expense categories. The Self-Sustaining Fund is projecting to end the fiscal year with a net change to fund balance of \$946,797.

2012-2013 First Quarter Report

RESTRICTED and CATEGORICAL Fund 121/131

Restricted and Categorical Funds are those resources that come from federal, state or local agencies. In general, money received from these programs is restricted for a specific purpose. The principal programs in the Restricted and Categorical fund are as follows:

Instructional Equipment, Library Materials, and Technology (Block Grant): For 12/13, we are planning no new revenues for instructional equipment or library materials; however, we plan to spend approximately \$500,000 for instructional equipment, utilizing 11/12 carryover funds.

Perkins Career and Technical Education Act (CTEA): CTEA funds are federal funds administered by the state for technical education and improvement of career and technical programs.

High Tech Center Training Unit: This grant is funded by the state and provides support for training of instructors of disabled students at community colleges in the state. As at Adopted Budget, we are projecting \$1 million in revenue and related expenses for the High Tech Center Training Unit grant.

Matriculation, Staff Development, Staff Diversity, Extended Opportunity Programs and Services (EOPS), Cooperative Agencies Resources for Education (CARE), and CalWorks: These programs target specific populations or services funded by the state. There are no changes in the funding levels since the adopted budget, and the first quarter budget reflects the same level of funding as in the prior year.

Health Services Fees and Mandated Cost Reimbursement: Health Services fees are fees collected from the students and restricted for the provision of health services for students. Because the fee level is set by the state and we are mandated to provide a fixed level of services, the state provides reimbursement, known as "mandated cost reimbursement," for the cost of providing these services over and above what we collect. The mandated cost reimbursement is recorded in the General Purpose Fund. Changing the level of services we provide – either more or less – will jeopardize the mandated cost reimbursement.

It is important to note that for fiscal year 2012/13, the governor's adopted budget established a block grant for the majority of state mandates and allowed community colleges to choose between using the block grant method for reimbursement or to continue with the traditional claiming process. Foothill-De Anza, along with all other community colleges in the state of California, has elected to

use the block grant method for fiscal year 2012/13, as this guarantees approximately \$764,000 in funding to be received during the budget year. These funds will be retained in our General Purpose Fund (Fund 114).

In 2011/12, the Implicit Price Deflator Index used to calculate increases to the student health fee changed enough to support an increase to the health services fee; as a result, starting in summer quarter 12/13, the district increased the student health services fee from \$15 to \$16. Currently we are projecting approximately \$2.081 million in health services fees.

Economic Development: State funding provided for the operation of Foothill's Center for Applied Competitive Technologies and other projects for improving career development services locally and regionally.

National Science Foundation: Federal funding for curriculum development in science programs.

Current Status:

The changes to the Restricted and Categorical Fund for the first quarter include transfers out to the Self-Sustaining Fund of \$74,716 for MAA (Medical Administrative Activities), with corresponding decreases to the operating expense categories.

SPECIAL EDUCATION Fund 122

Special Education is a program mandated by *Title V* and funded primarily by the state. It provides services for physically, developmentally, or learning disabled students. Services include special classes, interpreters, on-campus assistance, test-taking assistance, computer-aided labs, and priority registration.

Current Status:

In the first quarter, \$57,653 was transferred into the Special Education Fund from the General Purpose Fund for PAA, PGA, and other salary backfill, with corresponding increases to the salaries and benefits categories.

FEDERAL WORK STUDY Fund 123

Federal Work-Study is a federal program providing financial aid to students in the form of compensation for work performed for on-campus and off-campus work. The district is required to contribute 25% of the total funds compensated to work study employees. Beginning with the 2000/01 year, institutions were required to spend at least 7% of the Work-Study allocation to pay students performing Community Service work.

PARKING

Fund 125

This fund collects all revenues and expenses associated with providing parking services at both campuses. Revenues are derived from sales of parking decals, daily permits, and fees from special events. Expenditures are restricted by state law to road and parking lot maintenance, parking security costs, related operating overhead and public transportation for students and staff.

Revenue from parking permits is limited by student enrollment and by the state statute that limits parking fees to \$100 per year. We are projecting an excess of operating expenses over revenue of \$400,000, which will be covered, as in prior years, by a transfer in from the General Purpose Fund to allow them to break even for the year.

There is no fund balance in the Parking Fund at this moment. Unlike the health fee, the parking fee does not rise automatically with the Consumer Price Index. This results in continued reductions to security services for parking and virtually no dollars available for parking lot maintenance.

Current Status:

No change from Adopted Budget.

2012-2013 First Quarter Report

CAMPUS CENTER USE FEES

Fund 128

Revenues are generated by collecting a mandatory fee for use of the campus centers at each institution. The proceeds are isolated by campus and are restricted for the following purposes in order of priority: 1) retirement of Certificates of Participation financing the campus center expansion projects, 2) repair and replacement of existing student campus center facilities, and 3) personnel support of campus center operations.

In November 2006, the district issued a Certificate of Participation for \$11.33 million, which paid for a portion of the new Foothill Campus Center building and a portion of the renovation of the De Anza Campus Center building. The new debt service will be repaid from increases in campus center student fees at both campuses that were approved in prior years.

Although the De Anza Campus Center Use Fee Fund is projecting a deficit of approximately \$45,490 for 2012/13, this over-expenditure, related to capital improvements for the De Anza Campus Center, is intentional in order to utilize the accumulated fund balance from the prior year.

Current Status:

No change from Adopted Budget.

ENTERPRISE FUND FOOTHILL and DE ANZA CAMPUS CENTERS FLINT CENTER

The Enterprise Fund is accounted for in a manner whereby the total costs of providing goods and services are financed or recovered primarily through user charges. Enterprise operations comprise the Foothill and De Anza College Campus Centers and Flint Center for the Performing Arts. The Campus Centers include the two Bookstores and De Anza Dining Services. Financial activity in the Enterprise Fund is measured by gross margins and net profit rather than by the governmental budget to actual measurement.

Current Status:

Foothill Enterprise Fund

Bookstore

The most significant event affecting the bookstore this quarter is the increase in the textbook rental program. The bookstore's partnership with Missouri Book Systems (MBS) enabled the bookstore to increase the number of titles that can be rented from 98 titles last fall quarter 2011 to 214 titles this fall quarter 2012. This contributed to an increase of \$21,200 in textbook rental revenue. The popularity of textbook rentals inversely affects the sales of new and used textbooks. Overall, textbook sales were negatively impacted as a result of the cancellation of various course offerings at Foothill College in the areas of Real Estate, Travel and Tourism, and Foreign Languages (French, Italian, Korean, and Chinese).

Another significant event is the increase of inbound freight expenses. This year, major publishers did not offer any free freight programs. Therefore, the bookstore experienced an increase of \$13,300 in freight expenditures.

De Anza Enterprise Fund

Bookstore

Sales are down 23.75% due to continued competition from an off-campus bookstore, student on-line purchases, particularly through Amazon, a decrease in enrollment, elimination of programs and sections, and an increase in used textbook sales and rental textbook offerings. Cost of sales decreased by 27.38% because of the increase in used textbook sales and rental textbooks, compared to new textbook sales.

Textbook rentals are up by 46% due to changes in existing rental programs, as well as a new program that offers more textbook rentals to students.

Payroll is down slightly (4.06%) due to the decrease in student help, fewer casual employees, and a decrease in overtime for classified staff, all of which could negatively affect sales and create longer lines.

Overall, inventory is down slightly due to changes in product mixes across the board.

Dining Services

Cafeteria sales are up approximately 8% over last year. Catering has been negatively impacted, primarily because campus departments have been discouraged from using their 'B' budgets for catering services. In addition, sales were lower because the main opening day events took place at Foothill College this year, rather than at De Anza College. This accounted for a slight decrease in cafeteria sales when compared to last year.

Operating expenses are up because of purchases of new tools and equipment. Other income is lower by 21% due to the under-booking of commissions revenue from third party vendors. Commissions revenue will be adjusted accordingly in the second quarter.

Combined Bookstore & Dining Operations

No changes to the projections for the De Anza Enterprise Fund are being made at this time. The combined operations of the De Anza Enterprise Fund have a net loss of \$31,965 for the first quarter of this year, compared to a net loss of \$104,040 for first quarter of last year.

- Bookstore Profit \$87,145
- Dining Services Loss \$119,110

Flint Center Fund

As anticipated, income was nominal in the first quarter due to very few events on the calendar, although we are pleased to announce that Lab 126 and Seagate have been retained as corporate clients who will be utilizing our facility twice a year.

Flint Center expenses came in slightly less than budgeted for the first quarter. In an effort to control healthcare expenses, Flint Center employees who are participating in their health insurance plan will begin contributing \$100 per paycheck towards their monthly premium in November.

We are expecting a busy and profitable second quarter, and are hopeful that this will put us back on track to meet our 12/13 projections.

CHILD DEVELOPMENT Fund 300

The Child Development Fund supports the costs associated with the district's Child Development Center located at De Anza College. The De Anza Child Development Center provides services to students from both Foothill College and De Anza College. Providing childcare to children between the ages of one and six years old, the center is also utilized as a facility for Early Childhood Education students to observe and train. In 1999/00, De Anza opened an infant-toddler center to support Foothill-De Anza students, including CalWorks students, and for use by the community.

STUDENT FINANCIAL AID Fund 700

These funds are used for federal, state, and local financial aid programs. The federal programs are the Pell Grants, Supplemental Educational Opportunity Grants (SEOG), Perkins Loan Program and Americorps Community Service Initiative Grants. The state programs are EOPS grants and Cal Grants. Local programs include a variety of scholarships. The Perkins and SEOG programs both require a match.

INTERNAL SERVICE Fund 600

The purpose of such a fund is to separately account for services provided on a district-wide basis. Costs associated with providing health benefits, workers' compensation, extended sick leave, and post-retirement benefits are to be accounted for in one fund, and an appropriate service rate is charged to each of the other funds.

In the past, this fund was used almost exclusively as an accounting convenience to charge benefits in one fund and then distribute them to all other funds. Any positive or negative ending balances were closed to the General Purpose fund at year-end. Currently, any residual balances (savings/overspending) generated in any given year are closed out to the General Purpose Fund and the net balance is then transferred back to the Internal Service Fund. This has allowed for significant savings to accumulate over a period of several years.

We have included an exhibit on the next page that summarizes Internal Service fund balances. At Adopted Budget, we budgeted a transfer in of \$500,000 to this fund from the General Purpose Fund for 12/13, with corresponding outgo to the California Employees Retiree Benefit Trust (CERBT), sponsored by the California Public Employees Retirement System (CalPERS). An agenda item will be brought to the Board of Trustees authorizing the district to make this contribution during the latter part of the fiscal year.

As mentioned in the adopted budget, the district has been actively seeking ways to curtail expenditures in the area of health benefits and at the same time still provide a quality health benefits plan for eligible employees and retirees. As a result of work and research by the Joint Labor Management Benefits Council, an alternative health benefits plan administered under CalPERS was identified as the most viable option. This new plan went into effect July 1, 2012. Since the new CalPERS plan rates are assessed on a calendar year basis, active employees and retirees were subjected to another enrollment process in September. The district just finalized this new enrollment process and will analyze any changes to enrollment trends that may result in adjustments to our current projections. This year, as a result of a negotiated agreement with constituent groups, the district provided one-time relief from an out-of-pocket deductible that was assessed twice for employees who were previously enrolled in a United Healthcare PPO or EPO plan and who enrolled mid-year in a CalPERS Anthem Blue Cross PPO plan. This relief was provided in the form of a one-time reimbursement to both active employees and retirees (approximately \$333,000). In

addition, closing claims will be accounted for under the old benefits program administered by United Healthcare. This transition is expected to last approximately eighteen months. Any increase from the 2012/13 budget of variances related to the one-time deductible reimbursement or closing out of old claims will be covered with one-time funds set aside in the Rate Stabilization Fund, currently estimated at \$10.6 million. Our medical expenses will be carefully monitored and the Board will be updated frequently throughout the year on medical benefits projections.

Current Status:

No change from Adopted Budget.

CAPITAL PROJECTS

Fund 400

Each account in this fund represents a specific capital project of sufficient importance to warrant separate accounting from the General Purpose Fund. All project budgets, budget transfers, and actual project expenditures are reviewed by the Audit and Finance subcommittee of the Board and then are approved by the Board of Trustees and, if appropriate, state agencies.

Budgets are reported on a project basis, whereas actual revenues and expenditures are accounted for on both a project and fiscal year basis. Funding may come from either outside sources, such as state sources, General Obligation Bonds, borrowings or donations, or from transferring resources from internal funds that will receive the benefit from the assets being created. Plant Services assumes fiscal responsibility for most of these financial accounts and reconciles these accounts with the project cost accounting system. The district currently has a number of major capital outlay projects and scheduled maintenance projects either under construction or in various queues.

Measure E Projects:

On November 2, 1999, voters in the district's service area approved by a 71.9% margin a \$248 million bond (Measure E) to renovate and expand college facilities to meet current health, safety and instruction standards. The projects include replacing aging roofs and deteriorating plumbing and electrical systems; refurbishing classrooms, science laboratories and restrooms; and constructing science and high-tech computer labs, classrooms and school facilities. The district has already completed the issuance of bonds in three series, Series A Bonds of \$99.9 million, Series B Bonds of \$90.1 million, and Series C Bonds of \$57.8 million.

Measure C Projects:

On June 6, 2006, voters in the district's service area approved by a 65.69% margin a \$490.8 million General Obligation bond (Measure C). In May 2007, the district issued Series A bonds of \$149.9 million and Series B bonds of \$99.9 million. In June 2011, the district issued Measure C, Series C bonds for \$184 million. The bond measure will enable the district to upgrade electrical, heating, and ventilation systems; upgrade fire/seismic safety; repair leaky roofs; improve disabled access; repair/expand classrooms for nurses/paramedics; upgrade technology; and repair, construct, acquire, and equip buildings, classrooms, libraries, sites, and science/computer labs.

Current Status:

Under Measure C, both campuses and the district will experience design and construction of various capital construction projects, multiple maintenance and renovation projects, and ongoing scheduled maintenance projects in various stages of planning, design, and construction, starting with the most urgent needs first.

Educational Technology Services (ETS) will actively implement the remaining modules of the new integrated Educational Information System. ETS will see the deployment of Phase 2 wireless capability to both campuses to allow for a fully integrated wireless system, as well as the deployment of computers and multimedia units, network equipment and cable installations. ETS will participate in ongoing move and relocation efforts that include providing network and telecommunications support to faculty, staff and students temporarily displaced by construction. ETS will also participate in design review efforts to assess the technology infrastructure needs of several capital construction projects. These efforts of review will remain ongoing through the design phase of each project. ETS will also provide technical support during planned power outages.

Both colleges and the district will continue to acquire furniture and instructional equipment to support new and ongoing programs and to better serve the students and the larger community.

The Capital Project Fund is projecting a revision to increase Other Sources for \$326,078 for insurance reimbursements associated with the collapse of the Cottage House at De Anza, and a corresponding increase to the operating expenses category.

Post-Closing Adjustment to Fund Balance:

As reported in our adopted budget document, we anticipated a post-closing entry to our 11/12 ending fund balance to account for our fair market value adjustment. The information needed to record the entry was not available at the time the adopted budget was presented to the Board of Trustees. The fair market value adjustment increased our 11/12 ending fund balance by \$842,133.

DEBT SERVICE

Fund 200

This fund is for the repayment of current principal and interest due on the district's general long-term debt and lease arrangements (Certificates of Participation). Resources are generally transferred into this fund from the fund or account that initiated the original debt or lease. This fund also accounts for the legally required reserves mandated by the various debt or lease issuances.

The district has issued three major debt instruments in recent years to finance large capital purchases such as the De Anza College parking garage, student center expansions at both colleges, technology infrastructure, and HVAC and deferred maintenance. \$6.9 million of Certificates of Participation matured on December 1, 1998. The remaining debt instruments are as follows:

- October 1997: The district defeased \$7.36 million of Certificates of Participation and issued \$12.52 million with effective interest rates of 3.8% to 5%. Payments of principal and interest are made June 1 and December 1 of each year. The estimated annual payment is \$1,514,535.
- May 1998: To finance the Energy Management and Retrofit Project, the district entered into a lease agreement with Municipal Leasing Associates. The amount of the lease is \$3,385,000 over fifteen years. The lease will be repaid from guaranteed savings realized in the use of energy efficient systems.
- May 2000: The district issued \$99.9 million of the General Obligation Bond, Series A, with effective interest rates of 4.25% to 6.26%. Payments of principal and interest are made August 1 and February 1 of each year.
- October 2002: The district refinanced a portion (\$67,475,000) of the General Obligation Bond, Series A (original value \$99,995,036) with effective interest rates of 4.61%. Payments of principal and interest are made February 1 and August 1 of each year.
- **June 2003:** The district refinanced the '93 COP of \$21.06 million. The refinanced amount of \$18.2 million constitutes the remainder of the original \$21.06 million with effective interest rates of

- 4.531%. Payments of principal and interest are made on September 1 and March 1 of each year. The estimated annual payment is \$1,348,892.
- October 2003: The district issued \$90.1 million of the General Obligation Bond, Series B, with effective interest rates of 2% to 5.79%. Payments of principal and interest are made August 1 and February 1 of each year.
- April 2005: The district entered into a capital lease agreement with CitiMortgage, Inc. to finance the purchase and installation of Photovoltaic Solar Collecting Systems at Foothill College and De Anza College. The amount of the lease is \$3,188,626 with a repayment term of over fifteen years. Savings from the utility charges will be used to service the debt payment each year.
- **June 2005:** The district entered into a capital lease agreement with CitiMortgage, Inc. to finance the purchase of Furniture and Fixtures and the MBS POS System for De Anza College Enterprise operation. The amount of the lease is \$539,050 with a repayment term of over ten years.
- **September 2005:** The district has been given an insured bond rating of "AA" by Standards & Poor's Rating Services and a rating of "Aa1" by Moody's Investors Services.
- October 2005: The district issued \$57.9 million of the General Obligation Bond, Series C, with effective interest rates of 4.81% to 5.03%. Payments of principal and interest are made August 1 and February 1 of each year.
- October 2005: The district refinanced a portion (\$22,165,000) of the General Obligation Bond, Series B (original value \$90,100,063) with effective interest rates of 3.00% to 5.250%. Payments of principal and interest are made August 1 and February 1 of each year.
- **November 2006:** The district financed a Certificate of Participation for \$11.33 million, with effective interest rates of 3.5% to 5%. Payments of principal and interest are made on September 1 and March 1 of each year. The estimated annual payment is \$1,020,254. The financed amount of the COP will be used for the renovation portion of the Foothill and De Anza Campus Center buildings and the Foothill Bookstore Equipment, Furniture and Fixtures.

- May 2007: The district issued \$149,995,250 million of the Election of 2006 General Obligation Bond, Series A, with effective interest rates of 4% to 5%. Payments of principal and interest are made August 1 and February 1 of each year.
- May 2007: The district issued \$99,996,686 million of the Election of 2006 General Obligation Bond, Series B, with effective interest rates of 4% to 5%. Payments of principal and interest are made August 1 and February 1 of each year.
- **June 2011:** The district issued \$184,000,000 million of the Election of 2006 General Obligation Bond, Series C, with an effective interest rate of 5.00%. Payments of principal and interest are made August 1 and February 1 of each year.
- May 2012: The district issued General Obligation Refunding Bond in an aggregate principal amount of \$70,735,000 million to pay for the current refunding of a portion of the district's outstanding 2002 General Obligation Refunding Bonds, the advance refunding of a portion of the district's outstanding Election of 1999 General Obligation Bonds, Series B, and the advance refunding of a portion of the district's outstanding Election of 1999 General Obligation Bonds, Series C, with effective interest rates of .25% to 5%. Payments of principal and interest are made August 1 and February 1 of each year.

Vear 3:							

* As specified in Collective Bargaining Agreement or other Employment Contract

c. Provide an explanation on how the district intends to fund the salary and benefit increases, and also identify the revenue source/object code.

9

audit findings or legal suits, significant differences in budgeted revenues or expenditures, borrowing of funds VI. Did the district have significant events for the quarter (include incurrence of long-term debt, settlement of (TRANs), issuance of COPs, etc.)?

If yes, list events and their financial ramifications. (Enter explanation below, include additional pages if needed.)

VII. Does the district have significant fiscal problems that must be addressed?

This year? Next year?

99

If yes, what are the problems and what actions will be taken? (Enter explanation below, include additional pages if needed.)

RESOLUTION 2012-48

Whereas, Title V, Section 58199, requires that the total amount budgeted as the proposed expenditure of the district for each major classification of district expenditures listed in the district budget forms shall be the maximum amount which may be expended for that classification of expenditures for the school year, and

Whereas, the district has reserves in excess of the amount required by Board policy, and

Whereas, the Board of Trustees by resolution may provide for budget revisions,

Be it therefore resolved, that the budget revisions be approved as follows:

BUDGET REVISIONS

The major elements of our budget revisions are listed below. The descriptions contain amounts for each type of budget revision; the tables represent the net revisions to each classification of expenditure.

Fund 114 - General Purpose Fund

The <u>major</u> revisions to the General Purpose Fund include a transfer in from the Foundation for salary backfill (\$6,547), a transfer in from the Special Education Fund for recruitment costs (\$800), and transfers out to the Special Education Fund for salary backfill (\$57,653).

CAPITAL PROJECTS

• The first quarter *Measure C* supplemental reports will be posted on the Measure C website at the following URL under the **December 11, 2012 Agenda**:

http://measurec.fhda.edu/meeting-minutes-agendas/

These reports are embedded as hyperlinks directly on the agenda under the category title **Measure C Reports** - **Projects Financial Update** (click on "**Attachment**") and will be available for viewing by Tuesday, December 11, 2012.

• The first quarter *Measure E* supplemental report will be posted on the Audit & Finance Committee website at the following URL under the **Thursday, November 29 Agenda**:

http://www.fhda.edu/about_us/board/getInfo

This report is embedded as a hyperlink directly on the agenda located below the category title Consent Calendar - Measure E Projects Report (click on "Attachment").

The Measure E report will be available for viewing by Thursday, November 29, 2012.
