

Campus Center Operations

5570

The Board believes that the needs of the students attending De Anza and Foothill Colleges can best be served if a bookstore and food service are available on each campus.

The bookstore and food service shall be a part of the campus center and shall be under the supervision and control of the college administration.

Provisions will be made by the college administration for Associated Students to establish a Campus Center Board which will recommend policies for the management and operation of these services. The Campus Center Board shall include representatives of groups with a direct interest in the operation and management of the campus center, including but not limited to representatives of college administration, faculty, staff, associated students and representatives of each of the campus center operations.

Approved 8/2/61
Amended 3/7/88
