## 2009/10 Second Quarter Report

## **SUMMARY OF MAJOR CHANGES**

The district has completed its financial analysis for the second quarter of operation (July 1, 2009-December 31, 2009). Enclosed in this document is a reporting for all of the funds the district maintains as authorized by the California Education Code. The short description and analysis at the beginning of each fund report explains the purpose of the fund and recent financial trends that may have changed from the Adopted Budget. Also included in this report is a supplemental information section that contains the State Quarterly Report (311Q) and Capital Projects Summary. The analysis of the General Fund follows.

## GENERAL FUND REVENUE

## **Revenue and Enrollment Assumptions**

### Resident Enrollment

The colleges have submitted their first period (P-1) report to the state reflecting actual FTES achieved during the summer and fall quarters, with estimated FTES for the winter and spring quarters. The report indicates that Credit Resident FTES is forecasted at 32,791 and that Non-Credit Resident FTES will come in at 327 (see Table 1). These numbers reflect over-the-cap FTES in credit resident enrollment of 1,046 FTES from the recalculated workload reduction base and a decrease of 140 FTES from the recalculated non-credit workload reduction base for a net of 905 over-the-cap FTES.

Although in our Adopted Budget we used 4% as the workload reduction base, the state eventually adopted a 3.4% workload reduction which would, after recalculation of revenue, add approximately \$500,000 to base apportionment. However, as we are following news of the state's dire fiscal outlook, we had to reassess our original assumption on deficit factor and, as a result, make an adjustment of approximately \$500,000 to reduce our base revenue. This came as a result of reviewing our fiscal year 2008/09 final recalculation where the last year's deficit factor was assessed at approximately 1.2%. Based on the best information we have on the state's fiscal outlook, we adjusted this year's deficit factor (originally budgeted at 1%) to closely match last year's assessed deficit factor of 1.2%. The net result of these two adjustments is no change to our base apportionment revenue projection for fiscal year 2009/10.

## Non-Resident Enrollment

In our first quarter report we indicated that we may revise our original revenue estimates by approximately \$350,000 due to a variety factors that were impacting non-resident student enrollment: the H1N1 virus, reduced course offerings, etc. Our most recent analysis indicates that we will most likely recover from our original decline and therefore we are not adjusting our original projections. It should be noted that these variances are in the range of 1-2% of the total non-resident revenue estimate.

## **Other Revenue Adjustments**

When we adopted our budget for fiscal year 2009/10 in September 2009, the state had released only preliminary figures related to the cuts to the categorical programs. At that time we reduced our revenue for part-time faculty equity funding to \$962,000, but the state's advanced allocation indicates that we will receive approximately \$260,000 less than we originally budgeted. We have

revised our revenue projections downward to reflect this anticipated revenue reduction.

In the second quarter, we received \$851,401 in American Recovery and Reinvestment Act (ARRA) one-time funds, which were booked in our general fund but transferred out to categorical programs, special education and child development funds.

## **Prior Year Adjustment**

At Adopted Budget, we reported that we might have to make some adjustments to our final 2007/08 revenue. The state cannot finalize prior year apportionment revenue until January of the next year, as that is when both final property tax revenues and final college FTES reports are certified. In our first quarter report we indicated that we may revise our original revenue estimates downward by approximately \$300,000 due to recalculation and recertification of 2007/08 FTES for the Industrial Volleyball League (IVL) and the attendance hours for student athletes. This adjustment was included in our 2008/09 final apportionment recalculation but was offset by a reduction in anticipated and booked at year-end deficit factor (actual deficit factor applied to apportionment at final recalculation was 1.2% rather than state projected at P-2 1.4%). As a net result of this recalculation, the district will receive an additional \$370,000 in one time funds. In addition, we will receive late payment of our 2008/09 part-time faculty office hours and part-time faculty insurance in a total amount of \$291,000. Although we revised our projections for this additional revenue, this number is only an estimate, as the final recalculation has not been officially published at the time this report went to print.

## **Productivity (WSCH/FTEF Ratio)**

For fiscal year 09/10, we have budgeted productivity at 544 (WSCH/FTEF) while the colleges are scheduling to their FTEF (Full-Time Equivalent Faculty) allocation based on the variables of FTES and WSCH/FTEF. With the 5% projected reduction in FTEF allocations for 09/10, the enrollment management teams are carefully assessing course offerings aligned with our core mission of fostering student success by providing access to a learning environment. With increased demand and our goal to maximize access for students, we are projecting our productivity to increase to approximately 580. Since all of our FTEF allocation will be exhausted to provide as much open access for students as possible, there will be little or no savings generated from an increase in productivity this year.

## GENERAL FUND EXPENSE

## **Certificated Salaries**

Our projections vary from Revised Budget by nearly \$345,000. This net variance represents some savings from unfilled positions but is offset by the increased cost in the part-time faculty accounts, which were necessary to achieve the budgeted FTES level.

As in prior years, any float from vacant faculty positions will be used to hire part-time faculty and the remainder of unused funds, if any, will revert to the unrestricted fund balance.

## **Classified Salaries**

The projected net variance under budget of \$1.2 million is mainly due to float generated from positions held vacant (est. \$500,000) or the addition of float from vacancies occurring from the

"Escrow I" list (est. \$700,000). As we have done in the past few years, any float generated from unfilled classified positions will be distributed to the colleges as one-time B budget monies. Float generated from "Escrow I" positions will be added to the unrestricted ending fund balance to increase the Stability Fund.

## Benefits

The management of the fringe benefit program as a self-insured program always brings an element of uncertainty to the budget compared to a fully insured program. An analysis of actual expenses for the first six months of 2009/10 indicates that we are on target and, unlike prior years, will not generate any savings this fiscal year. These expenses will continue to be monitored closely as they can change quickly as a result of only a few cases of illness or injury amongst the active and retired employees.

We are currently reviewing our Workers' Compensation Program as early analysis indicates that there may be some savings in fiscal year 2009/10. We are scheduled to meet with our Workers' Compensation agents to discuss program rates and potential savings in the near future and we will report on any material variances in the third quarter report.

## **Supplies and Capital Outlay**

At this time we are not estimating any changes in these expense categories.

## **Operating Expenses**

We are currently projecting that there will be \$5.6 million unspent in this category, mostly from 2008/09 carryover funds as follows:

- \$3.9 million in college and Central Services carryover (before float from 2009/10 unfilled positions of \$500,000 and float from vacant "Escrow I" positions of approximately \$700,000 is added—see explanation in Classified Salaries category)
- \$1.2 million in restricted district-wide carryover, which includes remaining funds for EIS backfill (original amount \$1.7 million). These funds were intended to be carried over as part of the 2009/10 Adopted Budget.
- \$292,000 in election costs expense budgeted in 2008/09 and carried over but unspent in 2009/10 will be carried over as restricted funds. These funds were intended to be carried over as part of the 2009/10 Adopted Budget.
- \$150,000 in district-wide expenses related to union negotiated items unspent in 2009/10 will be carried over as restricted funds
- We are adjusting our utilities projections downward to reflect favorable energy rates, resulting in a projected net savings of \$100,000 in fiscal year 2009/10 (See Table 2 on carryover breakdown)

## **Transfers and Other**

This quarterly report reflects actions as of December 31, 2009. In November 2009, \$711,314 was transferred to our Internal Service Fund (Fund 600/previously Fund 61) for the anticipated payment for unfunded retiree medical liability (See Fund 600 for details).

## **Fund Balance**

The net change to fund balance is the result of the combination of increases and decreases to revenue and expenses as explained in each line item noted above.

Based on all the assumptions of revenue and expenses, the 2009/10 Adopted Budget is still forecast to have an ongoing structural deficit of approximately \$3.6 million, with an excess of projected expenses over projected revenue (see Tables 2 and 3). We have planned to use the one-time unrestricted ending fund balance from 08/09 to balance the budget in fiscal year 2009/10.

In closing, we are currently well positioned to use our one-time savings from the prior year to weather this year's challenging budget conditions. There are, however, a few variables that are of great concern to us and we are keeping a close eye on them, as well as the state's fiscal condition, to address possible future reductions:

- State apportionment shortfall Recent reports by the Department of Finance (DOF) indicate that state general fund revenues are currently \$20 billion below what was budgeted (for the remainder of fiscal year 2009/10 and estimated for 2010/11). These estimates increase the probability of apportionment funding reductions from the state. We have accumulated savings over the past few years in our Internal Service Fund (Fund 600) from medical benefits savings. We have currently designated \$5.3 million of the remaining unrestricted \$12.3 million balance to be held to offset any fiscal year 2010/11 state general fund revenue reductions. Together with the remaining \$2.4 million in unrestricted funds in our general fund and estimated \$700,000 from float from vacant Escrow I positions, this represents \$8.4 million in available fund balance. Of this amount, \$2.1 million will be set aside for Escrow II, leaving \$6.3 million for the Stability Fund. If 2009/10 state general fund revenue reductions are larger than projected at Second Quarter Report (we are projecting a 1.2% deficit factor only), we will be forced to draw upon these savings much sooner to get us through this fiscal year.
- Medical Benefits Recent analysis of our medical expenses for the first six months indicate that we are on target and, unlike prior years, will not generate any savings during this fiscal year. These expenses will continue to be monitored closely as they can change quickly as a result of only few cases of illness or injury amongst the active and retired employees. Although we set aside a reserve for any changes from Adopted Budget estimates, once this reserve is exhausted in a given year, there will be fewer funds available to offset any increases in rates in 2010/11 and 2011/12.

The current budget strategy is to protect as much of our fund balance as possible in order to buffer potential reductions to the 2009/10 state budget for community colleges and have ample reserves to weather the 2010/11 budget storm. While the use of fund balances will help offset possible decreases in this – and possibly next – fiscal year, it will not be a permanent solution. We are currently working on a plan to incorporate structural solutions into our operating budget.

We will keep the Board informed of important developments affecting reserves as the year progresses.

## **ALL FUNDS CHART**

## SELF-SUSTAINING Fund 115

Self-Sustaining funds, as the name implies, counterbalance operating expenditures against the revenues generated from various instructional arrangements. Not all related costs are allocated to these programs but, for those expenses that are charged, the programs are expected to generate income or use accumulated balances to cover them. Although budgets are used as a means to forecast and control revenue and expenditure activity, spending is solely dependent upon their ability to generate sufficient revenue to adequately support such operations.

Most accounts within this group have residual funds; excess revenues over expenditures are available for use at the respective college's discretion. The residual funds are regarded as designated funds, which mean that, although the district regards them as restricted, they are actually unrestricted and are reported to the state as such. The Board of Trustees has the discretion to use the funds for any lawful purpose.

### **Current Status:**

In the second quarter of fiscal year 2009/10, state revenue projections for the Apprenticeship Program were adjusted downward from \$1,390,000 to \$1,045,653 to reflect the most current allocation of Montoya funding. This is due to deep cuts seen in the categorical funding areas for both Foothill and De Anza colleges. The resulting \$344,347 reduction in revenue will be offset by reduced spending on instructional salaries and benefits for the large number of classes held throughout the year and less overhead spending in order to stay within budget. Budget revisions to reflect these changes will take place in the third quarter. We are still projecting to end the fiscal year with a Net Change in Fund Balance of \$255,831.

## RESTRICTED and CATEGORICAL Fund 121/131

Restricted and Categorical Funds are those resources that come from federal, state or local agencies. In general, money received from these programs is restricted for a specific purpose. The principal programs in the Restricted and Categorical fund are as follows:

**Instructional Equipment, Library Materials, and Technology (Block Grant):** For 09/10, we are planning no new revenues for Instructional Equipment and Library Materials, as the state budget reflects a 100% cut for these funds. For 2009/10, we plan to spend approximately \$1 million for instructional equipment, utilizing 08/09 carryover funds.

**NASA Internship Program:** Provides training and paid internships for students at NASA Ames Research Center and other related businesses. We are reflecting \$1.1 million in revenue and related expenses for 09/10.

**Perkins Career and Technical Education Act (CTEA):** CTEA funds are federal funds administered by the state for technical education and improvement of career and technical programs.

**High Tech Center Training Unit:** This grant is funded by the state and provides support for training of instructors of disabled students at community colleges in the state. The restricted budget reflects a net cut of 16% (after the federal funds backfill) to the High Tech Center Training Unit grant.

Matriculation, Staff Development, Staff Diversity, Extended Opportunity Programs and Services (EOPS), Cooperative Agencies Resources for Education (CARE), and CalWorks: These programs target specific populations or services funded by the state. The state budget reflects net cuts (excluding the federal funds backfill) for CalWorks (49%), EOPS (40%), CARE (40%), Matriculation (51%), and Staff Diversity (56%).

**Health Services Fees and Mandated Cost Reimbursement:** Health Services fees are fees collected from the students and restricted for the provision of health services for students. Because the fee level is set by the state and we are mandated to provide a fixed level of services, the state provides reimbursement, known as "mandated cost reimbursement," for the cost of providing these services over and above what we collect. The mandated cost reimbursement is recorded in Fund 114. Changing the level of services we provide – either more or less – will jeopardize the mandated

cost reimbursement. For 09/10, we anticipate \$1.97 million in income and related expenses for Health Services.

**Economic Development:** State funding provided for the operation of De Anza's Center for Applied Competitive Technologies and other projects for improving career development services locally and regionally. The state budget reflects a net cut of 50% for Economic Development funding (excluding the federal funds backfill). We have budgeted for each Economic Development grant at the amount the state authorizes us to spend for each project.

**Americans with Disabilities Act (ADA):** State funding provided for the removal of architectural barriers to persons with disabilities.

National Science Foundation: Federal funding for curriculum development in science programs.

## **Current Status:**

The projections for the Restricted and Categorical Fund reflect the most recent state cuts to the Categorical Programs and incorporates the use of some of the one-time federal ARRA dollars that have been transferred into the fund to offset the reduction of state revenue. For the second quarter, we are projecting revenue of \$16.76 million. Expenses are projected at \$18.38 million. Transfers in from the general fund (ARRA, etc.) and Other Out Go (Sources) of funds of \$1.07 million help to close the gap between revenue and expenses. The operating loss for fiscal year 09/10 of \$552,180 will be covered from prior year carryover.

## SPECIAL EDUCATION Fund 122

Special Education is a program mandated by *Title V* and funded primarily by the state. It provides services for physically, developmentally, or learning disabled students. Services include special classes, interpreters, on-campus assistance, test-taking assistance, computer-aided labs, and priority registration.

## **Current Status:**

The Special Education Fund projections reflect the most recent state cuts to the Categorical Programs and includes the use of some of the one-time federal ARRA dollars that have been transferred into the fund to offset the reduction of state revenue. The revenue projection reflects a decrease from the 08/09 allocation of approximately 46% in State Categorical Program revenue for DSP&S. State revenue for Special Education is projected to be approximately \$1.8 million. Expenses for the fund are projected at \$8.1 million. The Special Education Fund requires a mandatory match from the general fund and, when we include the one-time federal ARRA dollars, the amount of the interfund transfer is estimated at \$6.08 million. During 2009/10, we anticipate utilizing \$209,000 in carryover funds.

## FEDERAL WORK STUDY Fund 123

Federal Work-Study is a federal program providing financial aid to students in the form of compensation for work performed for on-campus and off-campus work. The district is required to contribute 25% of the total funds compensated to work study employees. Beginning with the 2000/01 year, institutions were required to spend at least 7% of the Work-Study allocation to pay students performing Community Service work.

## **PARKING FUND**

## **Fund 125**

This fund collects all revenues and expenses associated with providing parking services at both campuses. Revenues are derived from sales of parking decals, daily permits, and fees from special events. Expenditures are restricted by state law to road and parking lot maintenance, parking security costs, related operating overhead and public transportation for students and staff.

Revenue from parking permits is limited by student enrollment and by the state statute that limits parking fees to \$100 per year. At the same time, expenses are escalating due to salary increases and increases in other operating expenses, which will result in an estimated operating deficit of \$365,191. Our current strategy is to cover this projected operating deficit with a transfer in from the general fund and Safety and Security budget to allow them to break even for the year.

There is no fund balance in the Parking Fund at this moment. Unlike the health fee, which rises automatically with the Consumer Price Index, the parking fee does not. This results in continued reductions to security services for parking and virtually no dollars available for parking lot maintenance.

## CAMPUS CENTER USE FEES Fund 128

Revenues are generated by collecting a mandatory fee for use of the campus centers at each institution. The proceeds are isolated by campus and are restricted for the following purposes in order of priority: 1) retirement of Certificates of Participation financing the campus center expansion projects, 2) repair and replacement of existing student campus center facilities, and 3) personnel support of campus center operations.

A major restructuring of the Foothill Campus Center Use Fee at Foothill College was approved by the Board of Trustees at the June 21, 2004, meeting. This restructuring of the fee was necessary due to 1) demolition of the old campus center and construction of a new building, requiring old debt to be paid off and new debt to be issued, and 2) restructuring the services and fee level that off-campus students paid. As a consequence of these actions, the Campus Center Use Fee at Foothill College was suspended until summer quarter 2006. During construction, the fund balance was used to pay necessary expenses. Currently, campus-based students pay \$16 and virtual campus students pay \$8.

Another major restructuring in Fund 128 is the De Anza Campus Center Use Fee at De Anza College, which was approved by the Board of Trustees at the June 6, 2005 meeting. The purpose for the increase was to finance a new debt of \$5 million for fifteen years for the renovation portion of the existing campus center building.

At the June 5, 2006 board meeting, the Board of Trustees approved to modify the De Anza Campus Center Use Fee for campus-based students for the next five years as follows:

2006/07	\$ 15.00
2007/08	15.50
2008/09	16.00
2009/10	16.00
2010/11	16.00 (will be reduced to \$15 if possible)

In November 2006, the district issued a Certificate of Participation for \$11.33 million, which paid for a portion of the new Foothill Campus Center building and a portion for the renovation of the De Anza Campus Center building. The new debt service will be repaid from the already approved increases in campus center student fees.

## ENTERPRISE FUND FOOTHILL and DE ANZA CAMPUS CENTERS FLINT CENTER

The Enterprise Fund is accounted for in a manner whereby the total costs of providing goods and services are financed or recovered primarily through user charges. Enterprise operations comprise the Foothill and De Anza College Campus Centers and Flint Center for the Performing Arts. The Campus Centers include the two Bookstores and De Anza Dining Services. Financial activity in the Enterprise Fund is measured by gross margins and net profit rather than by the governmental budget to actual measurement.

#### **Current Status:**

#### **Foothill Enterprise Fund**

Bookstore

The \$67,600 sales drop at the end of the first quarter widened to \$151,700, or 8%, through December. Computer sales accounted for 66% of the second quarter's sales loss. Sales to the district and college for computer products were down \$96,200 below last year for the quarter.

Despite the drop in sales, Foothill's bottom line net loss through December of \$98,700 is only 4% higher than last year's \$94,800. This was achieved through significant savings in freight-related costs.

Projected sales for the year have been revised to \$4,050,600. Despite the anticipated drop in sales, continued savings in several expense areas are expected to generate a net income of \$31,700 by the end of the year.

#### De Anza Enterprise Fund

**Bookstore** 

Electrical work caused the shutdown of the entire campus during the last week in December, which had a significant impact on the Bookstore's sales. In spite of this, December's sales ended up being down only \$100,900 compared to last year.

The widening of last year's \$122,000 net loss to this year's \$164,300 can be directly attributed to the lost sales noted above. The trends seem to indicate, however, a softening of demand. As a

result, forecasted sales for the year have been lowered to \$7,347,100 with a resulting net profit of \$100,300.

#### Dining Services

Compared against the second quarter of last year, cafeteria sales were essentially flat. Catering sales, however, continued their downward slide, declining by \$32,800. For the year, cafeteria sales are still up by 4.5%, while catering sales are down 47.2%.

Last year's profit of \$24,200 through December has turned to a loss of \$11,500 this year. The most notable factor contributing to this is the 47% drop in catering sales, which are expected to continue their decline, given the college and the district's budget situation.

For the year, projected sales have been revised to \$1,619,600. Anticipated net income has been lowered to \$38,300.

#### Combined Bookstore & Dining Operations

The combined operations of the De Anza Enterprise Fund have a net loss of \$175,800 through December compared to a net loss of \$97,800 last year:

- Bookstore Net loss of \$164,300 this year vs. a net loss of \$122,000 last year
- Dining Services Net loss of \$11,500 this year vs. a net profit of \$24,200 last year

Revised projections for the year ending June 2010 anticipate a net profit for the year of \$138,600:

- Bookstore Net profit of \$100,300
- Dining Services Net profit of \$38,300

#### Flint Center Fund

Due to the cancellations of six events and poor ticket sales, we are projecting that revenues for 09/10 will be approximately \$98,000 less than originally budgeted. Expenses came in slightly less than projected for the second quarter and although we are expecting a busier third and fourth quarter, we are projecting to end the year with a \$98,000 loss.

#### CHILD DEVELOPMENT FUND Fund 300

The Child Development Fund supports the costs associated with the district's Child Development Center located at De Anza College. The De Anza College campus completed construction of a new Child Development facility that has been utilized since August 2002. The renovations of two wings of the existing facility were completed in July 2003. The De Anza Child Development Center provides services to students from both Foothill College and De Anza College. Providing childcare to children between the ages of one and six years old, the center is also utilized as a facility for Early Childhood Education students to observe and train. In 1999/00, De Anza opened an infant-toddler center to support Foothill-De Anza students, including Cal Works students, and for use by the community.

#### **Current Status:**

The Child Development Fund projections reflect the most recent state cuts to the Categorical Programs. The revenue projection reflects a decrease of state revenue for Child Care Tax Bailout of approximately 51% from 2008/09, or \$162,000. Total revenue for Child Development is projected to be approximately \$2.23 million. Expenses for the fund are projected at \$2.28 million. The Child Development Fund received federal one-time ARRA funds of \$42,366, which will help to balance out the fund.

#### STUDENT FINANCIAL AID Fund 700

These funds are used for federal, state, and local financial aid programs. The federal programs are the Pell Grants, Supplemental Educational Opportunity Grants (SEOG), Perkins Loan Program and Americorps Community Service Initiative Grants. The state programs are EOPS grants and Cal Grants. Local programs include a variety of scholarships. The Perkins and SEOG programs both require a match.

#### **Current Status:**

There are no changes to the Student Financial Aid Fund in the second quarter.

#### INTERNAL SERVICE FUND Fund 600

The purpose of such a fund is to separately account for services provided on a district-wide basis. Costs associated with providing health benefits, workers' compensation, extended sick leave, and post-retirement benefits are to be accounted for in one fund, and an appropriate service rate is charged to each of the other funds.

In the past, this fund was used almost exclusively as an accounting convenience to charge benefits in one fund and then distribute them to all other funds. Any positive or negative ending balances were closed to the general fund (Fund 114) at year-end. Currently, any residual balances (savings/overspending) generated in any given year are closed out to the general fund and the net balance is then transferred back to the Internal Service Fund. This has allowed for significant savings to accumulate over a period of several years.

An analysis of our medical expenses for the first six months of fiscal year 2009/10 indicates that we are on target and, unlike prior years, will not generate any savings during this fiscal year. We are currently reviewing our workers' compensation program as early analysis indicates that there may be some savings in 2009/10. We are scheduled to meet with our workers' compensation agents to discuss program rates and potential savings in the near future and we will report on any material changes to the estimates in the third quarter end report.

We have included an exhibit on the next page that summarizes Internal Service Fund balances. At Adopted Budget, we budgeted a transfer in of \$711,314 to this fund from the general fund (Fund 114) in 09/10, with corresponding other outgo for unfunded retiree medical liability. Although for the past four years the district has been a member of the Community College League of California (CCLC) Joint Powers Authority and has kept its annual contributions in an irrevocable trust, in fiscal year 2009/10 the district will be leaving the CCLC program to join the California Employees Retiree Benefit Trust (CERBT) as sponsored by the California Public Employees Retirement System (CalPERS). Proceeds under the management of the CCLC trust will be transferred to the CERBT during the third quarter of 2009/10. We will bring an agenda item to the Board of Trustees authorizing the district to make this transfer.

#### INTERNAL SERVICE FUND BALANCES

#### CAPITAL PROJECTS FUND Fund 400

Each account in this fund represents a specific capital project of sufficient importance to warrant separate accounting from the General Purpose Fund. All project budgets, budget transfers, and actual project expenditures are reviewed by the Audit and Finance subcommittee of the Board and then are approved by the Board of Trustees and, if appropriate, state agencies.

Budgets are reported on a project basis, whereas actual revenues and expenditures are accounted for on both a project and fiscal year basis. Funding may come from either outside sources such as state sources, General Obligation Bonds, borrowings or donations, or from transferring resources from internal funds that will receive the benefit from the assets being created. Plant Services assumes fiscal responsibility for most of these financial accounts and reconciles these accounts with the project cost accounting system. The district currently has a number of major capital outlay projects and scheduled maintenance projects either under construction or in various queues.

#### **Current Status:**

There are no changes to projections in the second quarter.

#### **Measure E Projects:**

At Foothill, design efforts remain ongoing for the new ETS/Data Center Building and the renovation of the District Office Building with design anticipated to be completed in the second half of the fiscal year. Construction activities for both projects will occur under the Measure C bond program.

At De Anza, design efforts remain ongoing for Master Landscaping Phase II, Campus Site Lighting Phase II, ADA Asphalt Walkway Improvements, and the Advanced Technology Center (ATC) Central Plant & S-Quad Classrooms Noise Attenuation projects. Construction will occur under the Measure C bond program for Campus Site Lighting Phase II, ADA Asphalt Walkway Improvements, and the Advanced Technology Center (ATC) Central Plant & S-Quad Classrooms Noise Attenuation.

#### **Measure C Projects:**

The second quarter of fiscal year 09/10 at Foothill saw completion of the Fire Alarm System Replacements (Phase 2) project. Design was completed for the replacement of the Utility Lids (Phase 2) and the Exterior Signage infrastructure projects with construction to commence in the third quarter. Construction began on the swimming pool repairs project and is anticipated to be completed during the second half of the fiscal year. The following renovation projects received approval from the Division of State Architects (DSA): Soccer, Softball and Baseball Complex; Administration Building (Bldg. 1900); General Classrooms (Physical Sciences, Mathematics & Engineering Bldg. 5500 and Language Arts Bldg. 6400). Construction of these projects is anticipated to begin during the second half of the fiscal year.

Construction documents are in progress for the Physical Sciences & Engineering Center / Parking Lot 4 and renovation of the Language Arts Classrooms (Bldgs. 6200, 6300 and 6500). Both projects have been submitted to the Division of State Architects (DSA) for approval. Construction documents for the first phase of the Utility Infrastructure Upgrades project are expected to be submitted to the Division of State Architects (DSA) in the third quarter. Design continues on Central Campus Site Improvements and Parking and Circulation infrastructure projects. Renovations of the Physical Education Lab Space (Bldg. 2900) and the Smithwick Theater, as well as reconstruction of Stadium Bleachers and Press Box, will continue through the second half of the fiscal year. Improvements to correct the mechanical systems at the Krause Center for Innovation will also continue.

At De Anza, construction was completed on renovations of the E1 Auto Technology building with closeout activities and building occupancy continuing through the second half of the fiscal year. Substantial completion of the site work was achieved on the Mediated Learning Center Site Preparation project with final closeout anticipated to be complete during the second half of the fiscal year. Construction documents for the building portion of the Mediated Learning Center project was submitted to the Division of State Architects (DSA) for approval, while construction efforts began on replacement of the Pool Chlorination System and the Baldwin Winery and East Cottage "Historic Renovation." Construction continues on the first phase of the S2-S6 Phase 2 Utility Master Plan maintenance project. Design was completed for the combined Seminar Building and Multicultural Center; Corporation Yard; Secured Bicycle Storage for students; Roof and Trellis Repair (PE1-2-6 and S7-8); and the CDC Playground Maintenance & Upgrade projects. Construction of these projects is anticipated to begin during the second half of the fiscal year, with

the exception of the Corporation Yard. Design will begin in the second half of the fiscal year for the Sunken Garden and the Campus Center Renovation projects, while programming efforts continue for the Advanced Technology Center (ATC).

Educational Technology Services (ETS) continues implementation of the new integrated Educational Information System (EIS) that will replace the district's current management information system. Major achievements for the quarter include the successful conversion of the operating platform for the Banner Finance module from 7.4 to 8.3. Several process conversions took place for payroll, position control, and faculty load, including time entry training and parallel payroll testing. Implementation of the Banner modules for Human Resources/Payroll went live as scheduled on January 4, 2010 and implementation of the Student module will occur as planned during the second half of the fiscal year. ETS saw continued deployment of Phase 2 wireless capability to both campuses, which included configuring the Airwave management system for monitoring and controlling the ARUBA integrated wireless system. Several computer, multimedia, and cable installations took place at both colleges during the quarter, including the installation of six multimedia units to support the Auto Technology program at De Anza. ETS provided support during the power shutdowns associated with the S2-S6 Phase 2 Utility Master Plan maintenance project. This support will continue through construction. ETS completed the installation of telecommunications for the newly renovated Auto Technology building at De Anza, as well as the decommissioning of the telecommunications network in the Administration Building (Bldg. 1900) at Foothill in preparation for renovation of the building.

ETS will continue to participate in design review efforts to assess the technology infrastructure needs for the new Mediated Learning Center, the new Physical Sciences & Engineering Center, and the new District Office/Data Center Renovation projects. These efforts of review will continue through the design phase of the projects. ETS will continue to experience the deployment of wireless capability, computers and multimedia units, network equipment and cable installations, as well as participate in move and relocation efforts that include providing network and telecommunications support for faculty, staff and students temporarily displaced by construction.

Both colleges and the District will continue to acquire furniture and instructional equipment to support new and ongoing programs and to better serve the students and the larger community.

#### DEBT SERVICE FUND

#### **Fund 200**

This fund is for the repayment of current principal and interest due on the district's general long-term debt and lease arrangements (Certificates of Participation). Resources are generally transferred into this fund from the fund or account that initiated the original debt or lease. This fund also accounts for the legally required reserves mandated by the various debt or lease issuances.

The district has issued three major debt instruments in recent years to finance large capital purchases such as the De Anza College parking garage, student center expansions at both colleges, technology infrastructure, and HVAC and deferred maintenance. \$6.9 million of certificates of participation matured on December 1, 1998. The remaining debt instruments are as follows:

- October 1997: The district defeased \$7.36 million of Certificates of Participation and issued \$12.52 million with effective interest rates of 3.8% to 5%. Payments of principal and interest are made June 1 and December 1 of each year. The estimated annual payment is \$1,514,535.
- May 1998: To finance the Energy Management and Retrofit Project, the district entered into a lease agreement with Municipal Leasing Associates. The amount of the lease is \$3,385,000 over fifteen years. The lease will be repaid from guaranteed savings realized in the use of energy efficient systems.
- May 2000: The district issued \$99.9 million of the General Obligation Bond, Series A, with effective interest rates of 4.25% to 6.26%. Payments of principal and interest are made August 1 and February 1 of each year.
- October 2002: The district refinanced a portion (\$67,475,000) of the General Obligation Bond, Series A (original value \$99,995,036) with effective interest rates of 4.61%. Payments of principal and interest are made February 1 and August 1 of each year.
- **June 2003:** The district refinanced the '93 COP of \$21.06 million. The refinanced amount of \$18.2 million constitutes the remainder of the original \$21.06 million with effective interest rates of 4.531%. Payments of principal and interest are made on September 1 and March 1 of each year. The estimated annual payment is \$1,348.892.

- October 2003: The district issued \$90.1 million of the General Obligation Bond, Series B, with effective interest rates of 2% to 5.79%. Payments of principal and interest are made August 1 and February 1 of each year.
- April 2005: The district entered into a capital lease agreement with CitiMortgage, Inc. to finance the purchase and installation of Photovoltaic Solar Collecting Systems at Foothill College and De Anza College. The amount of the lease is \$3,188,626 with repayment term of over fifteen years. Savings from the utility charges will be used to service the debt payment each year.
- **June 2005:** The district entered into a capital lease agreement with CitiMortgage, Inc. to finance the purchase of Furniture and Fixtures and the MBS POS System for De Anza College Enterprise operation. The amount of the lease is \$539,050 with a repayment term of over ten years.
- **September 2005:** The district has been given an insured bond rating of "AA" by Standards & Poor's Rating Services and a rating of "Aa1" by Moody's Investors Services.
- October 2005: The district issued \$57.9 million of the General Obligation Bond, Series C, with effective interest rates of 4.81% to 5.03%. Payments of principal and interest are made August 1 and February 1 of each year.
- October 2005: The district refinanced a portion (\$22,165,000) of the General Obligation Bond, Series B (original value \$90,100,063) with effective interest rates of 3.00% to 5.250%. Payments of principal and interest are made August 1 and February 1 of each year.
- **November 2006:** The district financed a Certificate of Participation for \$11.33 million, with effective interest rates of 3.5% to 5%. Payments of principal and interest are made on September 1 and March 1 of each year. The estimated annual payment is \$1,020,254. The financed amount of the COP will be used for the renovation portion of the Foothill and De Anza Campus Center buildings and the Foothill Bookstore Equipment, Furniture and Fixtures.
- April 2007: The district issued \$149,995,250 million of the Election of 2006 General Obligation Bond, Series A, with effective interest rates of 4% to 5%. Payments of principal and interest are made August 1 and February 1 of each year.

• May 2007: The district issued \$99,996,686 million of the Election of 2006 General Obligation Bond, Series B, with effective interest rates of 4% to 5%. Payments of principal and interest are made August 1 and February 1 of each year.

c. Provide an explanation on how the district intends to fund the salary and benefit increases, and also identify the revenue source/object code.

VI. Did the district have significant events for the quarter (include incurrence of long-term debt, settlement of audit findings or legal suits, significant differences in budgeted revenues or expenditures, borrowing of funds (TRANs), issuance of COPs, etc.)?

9

If yes, list events and their financial ramifications. (Enter explanation below, include additional pages if needed.)

VII. Does the district have significant fiscal problems that must be addressed?

This year? Next year?

99

If yes, what are the problems and what actions will be taken? (Enter explanation below, include additional pages if needed.)

#### RESOLUTION

Whereas, Title V, Section 58199, requires that the total amount budgeted as the proposed expenditure of the district for each major classification of district expenditures listed in the district budget forms shall be the maximum amount which may be expended for that classification of expenditures for the school year, and

Whereas, the district has reserves in excess of the amount required by Board policy, and

Whereas, the Board of Trustees by resolution may provide for budget revisions,

**Be it therefore resolved**, that the budget revisions be approved as follows:

#### **BUDGET REVISIONS**

The major elements of our budget revisions are listed below. The descriptions contain amounts for each type of budget revision; the tables represent the net revisions to each classification of expenditure.

#### Fund 114 - General Fund

The <u>major</u> revisions to the General Fund include an increase to revenue for ARRA funds (\$851,401) and corresponding transfers out to the Categorical Fund (Fund 121/131) (\$207,719), Special Education Fund (Fund 122) (\$601,316) and Child Development Fund (Fund 300) (\$42,366); a transfer out to the Special Education Fund for salary adjustments (\$4,023); a transfer out to the Categorial Fund for salary backfill (\$200,000); and a transfer out to the Internal Service Fund (Fund 600) for unfunded medical liability (\$711,314).

### Note:

Interest earned from 7/1/09 to 12/31/09 is not reflected on this report as it is pending board action for distributribution to the projects.

### Projected Earnings Notes:

This financial report includes projected bond interest earnings. These are the assumptions used in determining projected earnings:

- The actual results will probably differ due to the timing of expenditures and changes in interest rates.
- Interest from cash is calculated using the past 3 year investment yield average from the Santa Clara County Comingled Fund. These estimates are more susceptible to change by spending patterns, changes on interest rates and other factors. Therefore, interest from cash is not included in this report.
- Earnings from securities are calculated using the original spending plan that was designed for the GO bond issuance.
- Series A: Securities will be fully liquidated by end of FY09/10.
- Series B: Remaining balance of securities at the end of FY09/10 will be \$23,147,000. The last invested security is scheduled to mature March 2012.

### **Capital Projects Update - Measure C Whole Program**

Reflecting Year-End Accruals and Projected Earnings

Reporting Period:
Inception to 12/31/2009

### **Funding Sources (Budget):**

Bond Sale:	\$490,800,000	94.46 %
Interest Earned:	\$21,861,730	4.21 %
Reimbursement of Gen. Fund*	\$271,818	0.05 %
Unallocated Interest Earned:	\$2,781,568	0.54 %
Total Bond:	\$515,715,115	99.26 %
State:	\$0	0.00 %
Scheduled Maintenance:	\$1,959,453	0.38 %
Projected Earnings:	\$1,902,207	0.37 %

### Notes:

- Overhead includes those items currently charged to the pass-through accounts (#501 and #510), as well as overhead charged to the individual projects.
- -\* Interest payment for reimbursement of General Fund per Board approval on June 4, 2008.

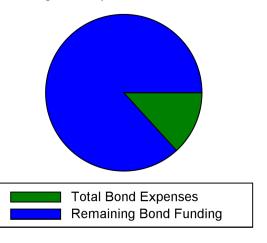

### Projected Earnings Notes:

This financial report includes projected bond interest earnings. These are the assumptions used in determining projected earnings:

- The actual results will probably differ due to the timing of expenditures and changes in interest rates.
- Interest from cash is calculated using the past 3 year investment yield average from the Santa Clara County Commingled Fund. These estimates are more susceptible to change by spending patterns, changes on interest rates and other factors. Therefore, interest from cash is not included in this report.
- Earnings from securities are calculated using the original spending plan that was designed for the GO bond issuance.
- Series A: Securities will be fully liquidated by end of FY09/10.
- Series B: Remaining balance of securities at the end of FY09/10 will be
   \$23,147,000. The last invested security is scheduled to mature March 2012.
   Projected Earnings field reports projections through period FY09/10.
