Sample Multimedia Control Panel for Dual Projectors

Operating Instructions:

1. Press the "**PROJ 1 ON\OFF**" button to power up Projector 1*.
2. Press the "**PROJ 2 ON\OFF**" button to power up Projector 2*.
   [*The button will flash during projector warm up, please be patient as this may take up to 2 minutes!]
3. Select a source and then a projector…
   a. **Classroom Dell or iMac:**
      i. Make sure the dedicated classroom Dell or iMac is powered on.
      ii. Press the "*PC*" button and then the **"PROJ 1 (or 2)"** button.
   b. **Laptop:**
      i. Plug the VGA cable from the input panel to the laptop's VGA out.
      ii. *Make sure your laptop is set to output external VGA**.*
      iii. Connect the audio cable to the headphone jack of the laptop.
      iv. Make sure your laptop volume is turned up.
      v. Press the "*LAPTOP*" button and then the **"PROJ 1 (or 2)"** button.
   c. **DVD:**
      i. Insert a DVD.
      ii. Press the "*DVD*" button and then the **"PROJ 1 (or 2)"** button.
      iii. Use the DVD Controls on the panel.
   d. **VCR:**
      i. Insert a VHS tape.
      ii. Press the "*VCR*" button and then the **"PROJ 1 (or 2)"** button.
      iii. Use the VCR Controls on the panel.
   e. **Document Camera:**
      i. Turn the Document Camera power on.
      ii. Press the "*DOC CAM*" button and then the **"PROJ 1 (or 2)"** button.
   f. **S-Video Input:**
      i. Connect the S-Video source to the input panel.
      ii. Connect the audio source to the RCA jacks on input panel.
      iii. Press the "*S-Video*" button and then the **"PROJ 1 (or 2)"** button.
4. Repeat step 3 as necessary until desired images are displayed on the projectors.
5. To turn off the system press the "*OFF*" button.
   [Wait 2 minutes for the projector to cool off before turning back on.]

**Most laptops require a combination of keystrokes to enable the external VGA output.
Dell laptops usually require you hold down the blue "Fn" key and press the "F8" {CRT/LCD} key.
Apple laptops usually require the "option" and "F7". Repeat keystrokes to toggle display mode.
