EIS Technical Meeting
May 23, 2011, 10:00am-11:00am

Attendees: Chien Shih, Joe Lampo, Drake Lewis, Jerrick Woo, Susan Malmgren and Kari Elliott (note taker).

1. Review Information System Memo:
   - Send modifications to Chien.
2. 8.4 in Production:
   - Banner out-of-box script not calculating census count numbers correctly. It used enrollment rather than apportionment. Correction made by ETS and is currently in certification with users.

   - Colleges may not make Fall deadlines because of catalog modifications.
     - o New regulations.
     - o Reflect classes no longer offered.
   - Defect list:
     - o P/NP still a manual process after classes start.
     - o Need to run script when waitlist is manually changed.
     - o SFRBWLP (Batch Waitlist Notification Process) is still a manual process after classes start.
3. BDMS:
   - Meetings scheduled for Thursday May 26, 2011 for consultant to meet with Finance and Purchasing.
   - Single sign on is working – Paul Apollo (SIG) and Matt.
   - Use security used for Student Dashboard.
   - Working on individual security setup.
   - Production converted by end of this week.
4. Review 3CBG Presentation Topics Proposal Draft:
   - FLAC.
   - Student Dashboard.
   - ARGOS – API Reports.
