## Section A: Introduction

### Lesson: Overview

◀ Jump to TOC

#### Workbook goal

The goal of this workbook is to provide you with the knowledge and practice to create applicant records in Banner Admissions module. This workbook is divided into four sections:

- Introduction
- Set Up
- Day-to-Day Operations
- Reference

#### Intended audience

Admissions and recruiting office staff and administrators

#### Objectives

At the end of this section, you will be able to

- create the rules to process the data
- set parameters used to process the data
- admit a student
- withdrawal a student
- assign a decision code
- perform a quick admit
- roll prospect information to Admissions.

#### Prerequisites

To complete this workbook, you should have

- completed the Education Practices computer-based training (CBT) tutorial “Banner 7 Fundamentals,” or have equivalent experience navigating in the Banner system
- completed the Curriculum, Advising, and Program Planning (CAPP) training workbook.

## Section A: Introduction

### Lesson: Overview (Continued)

◀ [Jump to TOC](#)

#### Section contents

Overview .....	5
Process Introduction .....	7
Terminology .....	9

## Section A: Introduction

### Lesson: Process Introduction

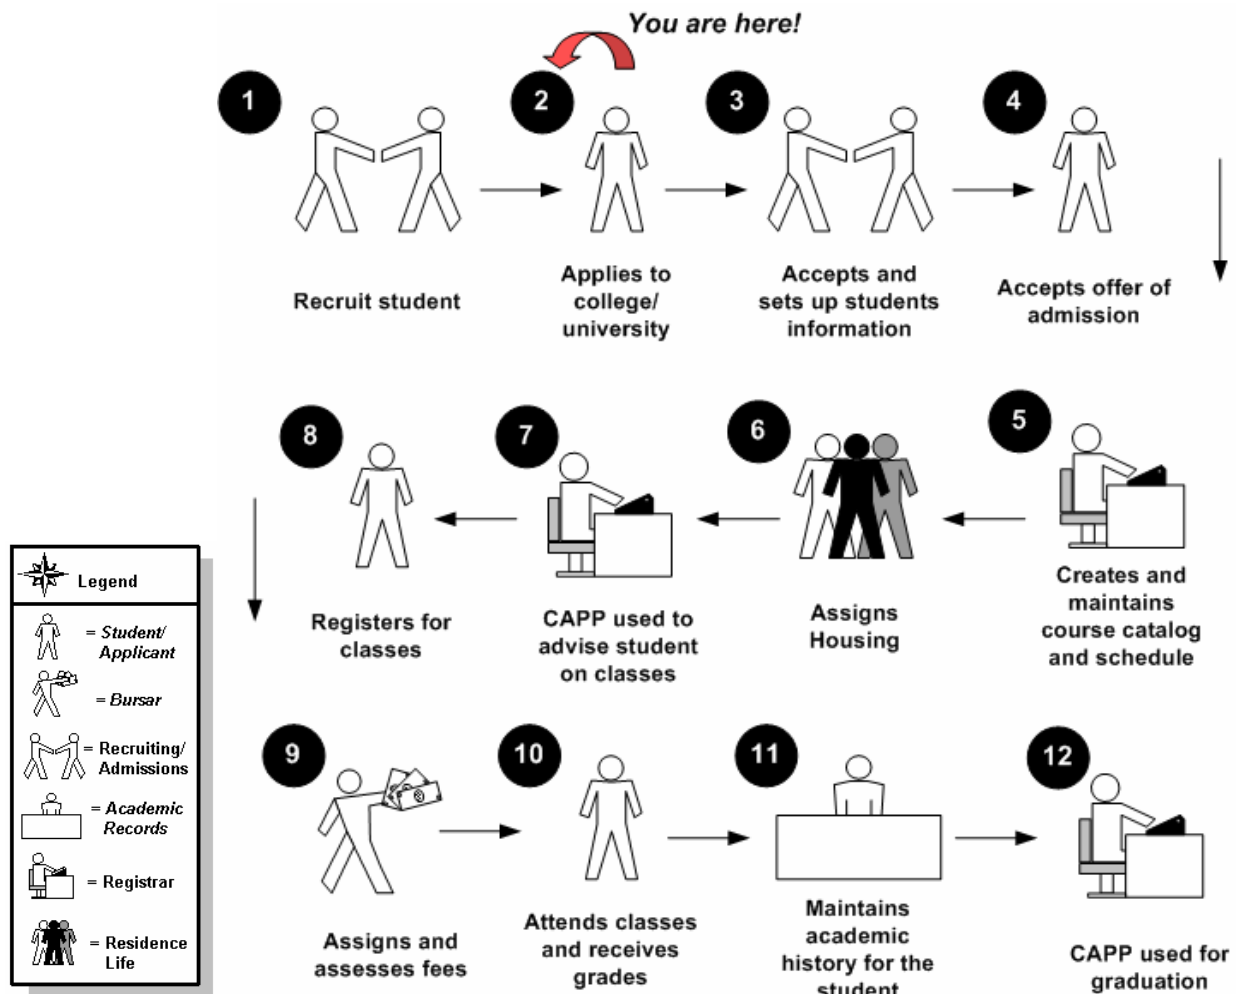

◀ Jump to TOC

#### Introduction

The Admissions office is responsible for developing the validation tables and control forms for applications, creating and maintaining application records, applying decisions, and maintaining checklist items.

#### Flow diagram

This diagram highlights where the admissions process occurs within the overall Student process.

## Section A: Introduction

### Lesson: Process Introduction (Continued)

◀ [Jump to TOC](#)

#### About the process

The process involves these steps:

- Validation forms are set up on the Banner system.
- Rule forms are set up for specific student types and terms.
- The applicant applies to the institution.
- The applicant's data is entered into Banner by Admissions.
- Admissions review application and supporting documents.
- Admissions makes a decision.
- Admissions notifies applicant of decision.
- Applicant accepts offer and becomes a student.

## Section A: Introduction

### Lesson: Terminology

◀ [Jump to TOC](#)

#### **Cohort**

A member of a group of students who have similar characteristics such as starting a program at the same time.

#### **Communication Plan**

A set of rules designed to implement an institution's preferences regarding who should receive which materials and when those materials should be sent. Materials can be generated (letter or label) or published (department brochures).

Example: All accepted high school students who apply for admissions into the Education program receive a letter acknowledging acceptance into both the university and the Education program. However, all accepted high school students who apply for admissions into the Nursing program receive a letter acknowledging acceptance into just the university and instructions for next steps on how to apply at a later time to the Nursing program. Prospective nursing students also receive a Nursing program brochure along with their acceptance letter into the university.

#### **Prospect**

A prospective student such as an applicant or recruit

#### **Quick Admit**

A process for adding a student to the Banner system with the minimum amount of data

#### **Student**

A person becomes a student when they accept the offer of admissions

## Section B: Set Up

### Lesson: Overview

◀ [Jump to TOC](#)

#### **Introduction**

The purpose of this section is to outline the set-up process and detail the procedures to set-up your Banner Student Admissions system.

#### **Intended audience**

The staff of the Admissions office and the Recruitment office who maintain biographic, demographic, and applicant data for applicants

#### **Objectives**

At the end of this section, you will be able to

- create the rules
- set parameters used to process the data.

#### **Prerequisites**

To complete this workbook section, you should have

- completed the Education Practices computer-based training (CBT) tutorial “Banner 7 Fundamentals,” or have equivalent experience navigating in the Banner system
- completed the Curriculum, Advising, and Program Planning (CAPP) training workbook.

### Lesson: Review Required Values for Validation Forms

◀ [Jump to TOC](#)

#### Introduction

The Banner Student System works in conjunction with other Banner systems. Certain processes in Banner Student are associated with specific values in validation forms. If the forms do not contain these values, processes associated with these forms will not run correctly. You can tailor some of the forms by adding or deleting values, but certain forms must remain as delivered.

Validation forms enable you to tailor the Student System to your needs by providing the system with lists of coded values that can be entered at specific prompts.

Note: When tailoring these codes, be mindful of the impact on other modules, i.e. Human Resources or Alumni. Refer to your institution's data standards policy and procedures as well to ensure compliance.

#### Shared validation forms

Some of the validation forms that need to be set-up will be tables that are maintained by other areas of Banner. Validation forms beginning with STV are shared with the Banner Human Resources System. Those beginning with GTV are Banner General System forms. Some of these forms can be viewed but not changed without proper security access.

## Section B: Set Up

### Lesson: Entering Data into Validation Forms

[Jump to TOC](#)

#### Introduction

Before Banner can process an applicant or student, there are several validation codes and rule forms that need to be set up. The Validation forms ensure data is entered consistently by providing drop-down list to choose from. The values in the drop-down lists are created on the validation forms.

Example: The following procedure uses the Admission Type Code Validation Form (STVADMT) which allows you to create or update an admission type code. The validation forms listed in the table follow these same procedures.

#### Banner form

The Admission Type Code Validation Form (STVADMT).

Type	Description	Activity Date
EA	Early Admission	03-JAN-1995
ED	Early Decision	03-JAN-1995
GT	Gifted Program	17-AUG-2004
SP	Special Program	03-JAN-1995
ST	Standard	03-JAN-1995

#### Procedure

Follow these steps to complete the process.

Step	Action
1	Access the Admission Type Code Validation Form (STVADMT).
2	Perform an <b>Insert Record</b> function.
3	Enter a code in the <b>Code</b> field.
4	Enter a description of the code in the <b>Description</b> field.
5	Click the <b>Save</b> icon.
6	Click the <b>Exit</b> icon.
7	Repeat this process to ensure all the validation forms listed in Table 1 are set up.

## Section B: Set Up

### Lesson: Entering Data into Validation Forms (Continued)

◀ Jump to TOC

**Table 1**

The forms listed in Table 1 follow the same format as the example. Follow the steps listed above to set the rules and parameters in Banner for new or prospective students.

Form Description	Banner Name
Admission Type Code Validation	STVADMT
Student Attribute Validation	STVATTS
Communication Group Code Validation	STVCGRP
County Code Validation	STVCNTY
Communication Plan Code Validation	STVCPLN
Contact Type Code Validation	STVCTYP
Diploma Type Validation	STVDPLM
Duplicate Material Code Validation	STVDPMR
Education Level Code Validation	STVEDLV
Education Goal Validation	STVEGOL
IPEDS Ethnic Code Validation	STVETCT
Outside Interest Code Validation	STVINTS
Interview Code Validation	STVINTV
Legacy Code Validation	STVLGCY
Material Code Validation	STVMATL
Student Fee Assessment Code Validation	STVRATE
Recruit Type Validation	STVRTYP
Source/Background Institution Code Validation	STVSBGI
High School Subject Validation	STVSBJC
Session Code Validation	STVSESS
Test Score Administration Type Code Validation	STVTADM
Test Accommodation Validation	STVTEAC
Test Form Validation	STVTEFR
Test Instrument Validation	STVTEIN
Telephone Type Validation	STVTELE
Test Purpose Validation	STVTEPR
Admission Test Score Source Code Validation	STVTSRC

## Section B: Set Up

### Lesson: Entering Data into Validation Forms (Continued)

◀ [Jump to TOC](#)

#### Next Steps

Once you have set up all the validation forms listed in Table 1, you will need to set up additional validation and rule forms. Since these forms have additional fields, the procedure for each is listed separately in the following pages.

Note: If your institution is currently using the Banner Human Resources systems, you do not need to set up Address Type Code, Citizen Type Code, State/Province Code, or Ethnic Code Validation Forms. You can skip these and go directly to Letter Code Validation.

## Section B: Set Up

### Lesson: Address Type Code Validation

◀ Jump to TOC

#### Introduction

The Address Type Code Validation Form (STVATYP) is used to create and maintain Address Type codes.

Example: Billing, Permanent, and Mailing.

Warning: All Banner Systems share this validation form. Coordinate with other Banner System users at your organization when deciding what codes are used on this form.

#### Banner form

Address Type	Description	Telephone Type	Description	System Required	Activity Date
BI	Billing	BI	Billing	<input checked="" type="checkbox"/>	13-OCT-2005
BU	Business	BU	Business or work	<input checked="" type="checkbox"/>	03-MAY-1991
DA	Dormitory Address	RH	Residence Hall	<input type="checkbox"/>	01-JUL-2004

PR	Permanent	PR	Permanent	<input type="checkbox"/>	08-AUG-2005
RH	Residence Hall	RH	Residence Hall	<input type="checkbox"/>	06-APR-1995

## Section B: Set Up

### Lesson: Address Type Code Validation (Continued)

◀ [Jump to TOC](#)

#### Procedure

Follow these steps to complete the process.

Step	Action
1	Access the Address Type Code Validation Form (STVATYP).
2	Perform an <b>Insert Record</b> function.
3	Enter a two-character code in the <b>Address Type</b> field.
4	Enter a description of the code in the <b>Description</b> field.
5	Enter a default telephone type that corresponds to the address type in the <b>Telephone Type</b> field if appropriate.
6	Click the <b>System Required</b> checkbox if this code is required by the system.
7	Click the <b>Save</b> icon.
8	Click the <b>Exit</b> icon.

## Section B: Set Up

### Lesson: Citizen Type Code Validation

◀ Jump to TOC

#### Introduction

The Citizen Type Code Validation Form (STVCITZ) is used to create and maintain Citizen Type codes.

Examples: US Citizen, Canadian Citizen, or Not a Citizen and Student Visa.

Warning: All Banner Systems share this validation form. You should coordinate with other Banner System users at your organization when deciding what codes are used on this form.

#### Banner form

Code	Description	Citizen Indicator	EDI Equivalent	Activity Date
CZ	Citizen	<input checked="" type="checkbox"/>		27-JUN-2005
N	Non-Citizen	<input type="checkbox"/>		22-JAN-1992
NR	Non-resident Alien	<input type="checkbox"/>		08-JUL-2004
OT	Other	<input type="checkbox"/>		27-JUN-2005
RA	Resident Alien	<input type="checkbox"/>		20-APR-2006
Y	Citizen	<input checked="" type="checkbox"/>		22-JAN-1992
		<input type="checkbox"/>		
		<input type="checkbox"/>		

#### Procedure

Follow these steps to complete the process.

Step	Action
1	Access the Citizen Type Code Validation Form (STVCITZ).
2	Enter a code in the <b>Code</b> field.
3	Enter a description of the code in the <b>Description</b> field.
4	Click the Citizen Indicator checkbox if this code indicates that the person is a citizen.
5	Enter the corresponding EDI equivalent value in the <b>EDI Equivalent</b> field.
6	Click the <b>Save</b> icon.
7	Click the <b>Exit</b> icon.

## Section B: Set Up

### Lesson: State/Province Code Validation

◀ Jump to TOC

#### Introduction

The State/Province Code Validation Form (STVSTAT) is used to create, update, and delete state and province codes.

Examples: Delaware (DE), British Columbia (BC), and Pennsylvania (PA).

Warning: All Banner Systems share this validation form. You should coordinate with other Banner System users at your organization when deciding what codes are used on this form.

#### Banner form

Code	Description	EDI Equivalent	IPEDS State Code	Canadian Statistics Code	Activity Date
123	Test 123				24-JUN-2004
456	Test 456				24-JUN-2004
AA	Military - Americas				08-DEC-1995
AB	Alberta	AB			28-JAN-2005
ACT	Australian Capitol Territory				26-JUL-1994
AE	Military - Europe				08-DEC-1995
AK	Alaska	AK			31-AUG-2004
AL	Alabama	AL			31-AUG-2004
AP	Military - Pacific				08-DEC-1995
AR	Arkansas	AR			31-AUG-2004
AS	American Samoa				18-AUG-1987
AZ	Arizona	AZ			31-AUG-2004
BC	British Columbia	BC			31-AUG-2004
CA	California	CA			31-AUG-2004
CM	Northern Mariana Islands				18-AUG-1987
CO	Colorado	CO			31-AUG-2004
CT	Connecticut	CT			31-AUG-2004
CZ	Canal Zone				18-AUG-1987
DC	District of Columbia	DC			31-AUG-2004
DE	Delaware	DE			31-AUG-2004

#### Procedure

Follow these steps to complete the process.

Step	Action
1	Access the State/Province Code Validation Form (STVSTAT).
2	Enter a code in the <b>Code</b> field.
3	Enter a description of the code in the <b>Description</b> field.
4	Enter the corresponding EDI equivalent value in the <b>EDI Equivalent</b> field.
5	Enter the IPEDS reporting state code in the <b>IPEDS State Code</b> field.
6	Enter a code in the Canadian Statistics Code field for Canadian provinces.

## Section B: Set Up

◀ [Jump to TOC](#)

#### Procedure, continued

Step	Action
7	Click the <b>Save</b> icon.
8	Click the <b>Exit</b> icon.

## Section B: Set Up

### Lesson: Ethnic Code Validation

◀ Jump to TOC

#### Introduction

The Ethnic Code Validation Form (STVETHN) is used to create and maintain Ethnic codes. The ethnic codes are validated against the IPEDS Ethnic Code Validation Form (STVETCT) that is used to correlate the institution's ethnic codes with the required IPEDS codes.

**Warning:** All Banner Systems share this validation form. You should coordinate with other Banner System users at your organization when deciding what codes are used on this form.

#### Banner form

Ethnic Code	Description	IPEDS Code	EDI Equivalent	LMS Equivalent	Institution Race Code	New Ethnicity	Activity Date
10	Samoan				CAM Californian-American	Not Hispanic or Latino	02-SEP-2005
11	Asian Indian	3			2AB Asian Chinese	None	22-SEP-2005
2	Black or African-American	1			2AB Asian Chinese	Not Hispanic or Latino	21-SEP-2005
3	Hispanic-Other	4			2AB Asian Chinese	Hispanic or Latino	25-AUG-2005
3C	Cuban				2AA Asian Korean	Hispanic or Latino	07-SEP-2005
3P	Puerto Rican					None	31-MAR-1995
4	Asian	3			2AC Asian Indian	Hispanic or Latino	25-AUG-2005
4B	Other Pacific Islander					None	13-JUL-2005
5	Sioux	2				None	03-MAR-1992
50	Not Spanish,Hispanic or Latino					None	24-JUN-2005
6	Other	6				None	03-MAR-1992

#### Procedure

Follow these steps to complete the process.

Step	Action
1	Access the Ethnic Code Validation Form (STVETHN).
2	Enter a code in the <b>Ethnic Code</b> field.
3	Enter a description of the code in the <b>Description</b> field.
4	Select a corresponding IPEDS reporting code in the <b>IPEDS Code</b> field.
5	Enter the corresponding value in the <b>EDI Equivalent</b> field if required.
6	Enter the corresponding value in the <b>LMS Equivalent</b> field if required to link to your Learning Management System.
7	Click the <b>Save</b> icon.
8	Click the <b>Exit</b> icon.

### Lesson: Cohort Code Validation

◀ Jump to TOC

#### Introduction

The Cohort Code Validation Form (STVCHRT) is used to create and maintain Cohort codes used in the Recruiting, Admissions, General Student, and Academic History modules. These codes represent a cohort grouping assigned to students based on user-defined criteria. These codes provide a tracking mechanism for Student Right to Know reporting. Additional institutional cohort codes may also be added for internal tracking and reporting purposes.

#### Banner form

Cohort Code	Description	Start Term	End Term	Degree Level	Print Indicator	Activity Date
0310FRUG	Unit test gen 0310FRUG				<input type="checkbox"/>	21-JAN-2004
9510UGFR	199510 New Undergrad Freshmen	199510	200020	BA	<input checked="" type="checkbox"/>	29-JAN-1995

0610UGFR	200610 New Undergrad Freshman	200610	200889	AS	<input checked="" type="checkbox"/>	31-JAN-2005
					<input type="checkbox"/>	
					<input type="checkbox"/>	

#### Procedure

Follow these steps to complete the process.

Step	Action
1	Access the Cohort Code Validation Form (STVCHRT).
2	Enter a code in the <b>Cohort Code</b> field.
3	Enter a description of the code in the <b>Description</b> field.
4	Select a term in the <b>Start Term</b> field.
5	Select an expected graduation term for this cohort in the <b>End Term</b> field.
6	Select the expected degree level for this cohort in the <b>Degree Level</b> field.
7	Click the <b>Print Indicator</b> checkbox to have data about this cohort included in printed reports.
8	Click the <b>Save</b> icon.
9	Click the <b>Exit</b> icon.

## Section B: Set Up

### Lesson: Institutional Honors Code Validation

◀ Jump to TOC

#### Introduction

The Institutional Honors Code Validation Form (STVHONR) is used to create and maintain Institutional Honor codes.

Examples: Cum Laude, Magna Cum Laude, and Summa Cum Laude.

#### Banner form

Institutional Honors Code Validation STVHONR 7.0

Code	Description	Transcript Commencement		EDI	
		Print Ind	Print Ind	Equiv	Activity Date
C	cum laude	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	B35	10-NOV-200
M	magna cum laude	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	B37	10-NOV-200
S	summa cum laude	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	B36	10-NOV-200
		<input type="checkbox"/>	<input type="checkbox"/>		
		<input type="checkbox"/>	<input type="checkbox"/>		

#### Procedure

Follow these steps to complete the process.

Step	Action
1	Access the Institutional Honors Code Validation Form (STVHONR).
2	Enter a code in the <b>Code</b> field.
3	Enter a description of the code in the <b>Description</b> field.
4	Click the <b>Transcript Print Ind</b> checkbox if you want to print this institutional honor on the student's transcript.
5	Click the <b>Commencement Print Ind</b> checkbox if you want to print this institutional honor to print on the commencement report.
6	Enter the corresponding EDI honor code value in the <b>EDI Equiv</b> field.
7	Click the <b>Save</b> icon.
8	Click the <b>Exit</b> icon.

## Section B: Set Up

### Lesson: Initials Code Validation

◀ Jump to TOC

#### Introduction

The Initials Code Validation Form (STVINIT) is used to create and maintain initials codes of institution personnel including Full Name, E-Mail Address and up to two titles.

Note: This form is used by the Material Form (SOAMATL) and the Letter Generation process to validate names in signature blocks of letters generated.

#### Banner form

Initials Code Validation STVINIT 7.0 (s4b70)

Initials	Full Name	Activity Date
DJK0	Julia Kershaw	07-APR-1987
E-Mail:		
Title Line One		Title Line Two
West Coast Recruiter		

Initials	Full Name	Activity Date
MAC0	Madelaine Cooper	07-OCT-1991
E-Mail:		
Title Line One		Title Line Two
Director, Financial Aid Office		

Initials	Full Name	Activity Date
NRC	Richard C. Naples	17-MAY-1995
E-Mail:

## Section B: Set Up

### Lesson: Student Type Code Validation

◀ Jump to TOC

#### Introduction

Use the Student Type Code Validation Form (STVSTYP) to create, update, insert, and delete student type codes (i.e., Returning Freshman, Continuing, Transfer, etc.). Several forms in various modules use this form to validate the student type codes. You can only create and update these codes from this form.

The following student type codes should be created for IPEDS reporting:

- Freshman
- First Time Freshman
- Unclassified
- Continuing
- First Time Graduate
- First Time Professional

#### Banner form

Code	Description	Next Student Type	System Required	Activity Date
b	Undeclared	0	<input checked="" type="checkbox"/>	31-MAY-1994
A	1st Time Freshman	C	<input type="checkbox"/>	23-MAR-2004
C	Continuing	C	<input type="checkbox"/>	06-MAY-1987
E	Adult/Continuing Education	E	<input type="checkbox"/>	04-JAN-1995
N	New First Time	C	<input type="checkbox"/>	04-JAN-1995
R	Returning	C	<input type="checkbox"/>	04-JAN-1995
S	Special	S	<input type="checkbox"/>	06-MAY-1987
T	Transfer	C	<input type="checkbox"/>	04-JAN-1995
W	01234567890123456789012345678X	X	<input type="checkbox"/>	19-FEB-2004
X	Transient	X	<input type="checkbox"/>	04-JAN-1995
			<input type="checkbox"/>	
			<input type="checkbox"/>	

#### Procedure

Follow these steps to complete the process.

Step	Action
1	Access the Student Type Code Validation Form (STVSTYP).
2	Enter a one-character code in the <b>Code</b> field.
3	Enter a description of the code in the <b>Description</b> field.

## Section B: Set Up

### Lesson: Student Type Code Validation (Continued)

◀ [Jump to TOC](#)

#### Procedure, continued

Step	Action
4	<p>Enter a code in the <b>Next Student Type</b> field to identify the student type to be assigned when the Student Type Update Report (SHRTYPE) is run.</p> <p><u>Example:</u> The Next Student Type for <i>A - First Time Freshman</i> would be <i>C - Continuing</i>. The Next Student Type for an <i>E - Adult Continuing Education</i> Code would be <i>E - Adult Continuing Education</i> since the status for this type of student would not change from year to year.</p>
5	<p>Click the <b>System Required</b> checkbox if this validation table record is required.</p> <p><u>Examples:</u> First Time Freshman, Continuing.</p> <p><u>Note:</u> The <b>System Required</b> checkbox is used to set up a default when residency is not entered in the Recruiting module, and the prospect record is pulled to the Admissions module to build the application. If the <b>System Required</b> checkbox is checked, the validation table record cannot be deleted.</p>
6	Repeat steps 2-5 until all codes are set up.
7	Click the <b>Save</b> icon.
8	Click the <b>Exit</b> icon.

## Lesson: Admissions Checklist Rules

◀ [Jump to TOC](#)

## Introduction

The Admissions Checklist Rules Form (SAACHKB) is used to build admissions request checklist items that will automatically be generated as an application is entered into the S0system. If the data that is entered in the Options Selection Criteria section of the form matches the information on the application, the checklist item appearing in the Admission Request Codes section of the form will be added to the applicant's checklist. These rules should be entered prior to applications being entered into the System.

Note: Only select codes in a field if it applies to just one code, otherwise leave the field blank.

Example: If the rule applies to all campuses and all degrees, then you would leave the **Campus** and **Degree** fields blank.

### Lesson: Admissions Decision Rules

◀ Jump to TOC

#### Introduction

The Admissions Decision Rules Form (SAADCSN) is used to enter criteria for System-calculated decisions. Using this form, you can define decision calculation rules based on any curricular element. All student information entered is compared to admission application data. Other areas of the form are used to enter, high school subject(s), test score information, and ratings to be compared to the applicant's data. Rules should be entered on this form prior to calculating any admission decision.

Note: You can create a separate record for each new set of rules for each decision. In other words, multiple records can exist with the same decision code but with a different set of rules.

Example: You can create an acceptance rule for high school students and another acceptance rule for returning adults and a third for transfer students. Although the rules are different, the same decision code (acceptance) would be used.

### Lesson: Self Check

◀ [Jump to TOC](#)

#### **Directions**

Use the information you have learned in this workbook to complete this self-check activity.

#### **Question 1**

On which form would you indicate that a duplicate letter should not go to the same student in the same term?

#### **Question 2**

Name at least two student type codes that should be created on the Student Type Code Validation Form (STVSTYP) for IPEDS reporting.

#### **Question 3**

Where would you enter the institution's admissions policies to be used by the System when calculating a decision on an applicant?

## Section B: Set Up

### Lesson: Answer Key for Self Check

◀ Jump to TOC

#### Question 1

On which form would you indicate that a duplicate letter should not go to the same student in the same term?

**The Letter Code Validation Form (GTVLETR).**

#### Question 2

Name at least two student type codes that should be created on the Student Type Code Validation Form (STVSTYP) for IPEDS reporting.

**The following student type codes should be created for IPEDS reporting:**

**Freshman**

**First Time Freshman**

**Unclassified**

**Continuing**

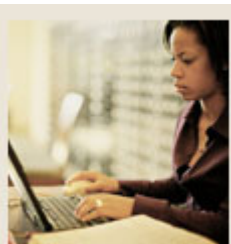

**First Time Graduate**

**First Time Professional**

#### Question 3

Where would you enter the institution's admissions policies to be used by the System when calculating a decision on an applicant?

**The Admissions Decision Rules Form (SAADCSN) is used to enter the organization's admissions policies.**

## Section C: Day-to-Day Operations

### Lesson: Overview

◀ [Jump to TOC](#)

#### **Purpose**

The purpose of this section is to explain the regular process and detail the procedures to handle admissions procedures at your institution.

#### **Intended audience**

The audience intended for this workbook is the staff of the Admissions office and the Recruitment office who maintain biographic, demographic and applicant data for prospects and applicants.

#### **Objectives**

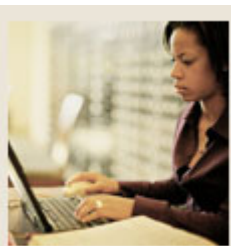

At the end of this section, you will be able to

- run the Admissions Decision Criteria Report
- admit a student
- withdrawal a student
- assign a decision code
- run the Admissions Decision Calculation Report
- perform a quick admit
- roll prospect information to Admissions
- run various reports related to Admissions.

#### **Prerequisites**

To complete this workbook section, you should have

- completed the Education Practices computer-based training (CBT) tutorial “Banner 7 Fundamentals,” or have equivalent experience navigating in the Banner system
- completed the Curriculum, Advising, and Program Planning (CAPP) training workbook.

### Lesson: Withdrawing an Applicant

◀ Jump to TOC

#### Introduction

The Fees, Mail Submission, Withdrawal Data tab on the Admissions Application Form (SAAADMS) is used to track applicants who are withdrawing from the application process, and to track the institutions the applicants have decided to attend.

#### Banner form

The screenshot shows the SAAADMS 7.3 Admissions Application Banner form. At the top, the title bar reads "Admissions Application SAAADMS 7.3". Below the title bar, the form is divided into several sections. The top section contains fields for "ID:" (777123456), "Taylor, McKenzie", "Term:" (200710), and "Fall 2006". There is a link "View Current/Active Curricula". Below this is a tabbed interface with tabs for "Application", "Curricula", "Fees, Mail Submission, Withdrawal Data" (which is selected), "Checklist", "Sources, Interests, Comments", and "Contacts, Cohorts, Attributes". The main content area is divided into three sections: "Application Fees", "Additional Data", and "Mail Submission". The "Application Fees" section includes fields for "Application Fee or Waiver:", "Last Application Fee:", "Application Fee Waiver:", "Application Fee Detail:", "Application Fee Amount:", and "Application Fee Date:". The "Additional Data" section includes fields for "Session:", "Educational Level:", "Educational Goal:", "Recruit Type:", "Recruiter:", "Interview:", "Legacy:", and "Citizen:". The "Mail Submission" section includes fields for "Letter:", "Wait Days:", and "Initials:". Below this is a section for "Withdrawal Data" with fields for "Withdrawal Reason:" and "Institution Attended:". The form is styled with a blue header and a white body with yellow borders for the main sections.

### Lesson: Rolling Prospect Information to Admissions

◀ Jump to TOC

#### Introduction

The Prospect Information Summary option on the Admissions Application Form (SAAADMS) takes you to the Prospect Summary Form (SRASUMI). This option is used to roll information from a Prospect record to Admissions if you've collected that information. Once the information has been rolled, you can make any necessary changes on the Admissions Application Form (SAAADMS). SRASUMI also allows you to see curricula records associated with a prospect record.

**Note:** This is a standalone query form used to display a summary of recruiting records for a prospect whether the records are active or inactive. A record is considered to be inactive if an institution attending or withdrawal reason code has been entered. Only active recruiting records are carried forward into admissions to create new admissions applications. The records are displayed in descending order by term or for the term entered in the Key Information. If neither the term nor level are entered, all records will display. If Term is entered, all records for that term and prior terms will be queried, and if Level is entered, only those records with an equal level will be displayed.

#### Banner form

Prospect Summary SRASUMI 7.3

#### Introduction

The Quick Entry Form (SAAQUIK) is used to add a student to the system as quickly as possible by entering only the necessary information needed.

**Example:** On the day before classes are to begin, a student accepts an offer of admissions and requests to be scheduled for the term. The student needs to be added to the system as quickly as possible in order to be scheduled for classes. The institution may elect to set up Quick Entry Rules (SAAQKER) in order to expedite data entry, based on a term and the student's level.

41	Select an application status code in the <b>Application Status</b> field.
42	Select an admissions decision in the <b>Admission Decision</b> field.
43	Perform a <b>Next Block</b> function to access the Curriculum block.
44	Select a catalog term in the <b>Catalog Term</b> field.
45	Enter a priority number that identifies curriculum rank in the <b>Priority</b> field.

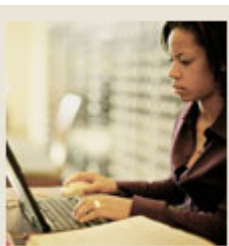

## Section C: Day-to-Day Operations

### Lesson: Rolling Prospect Information to Admissions (Continued)

◀ Jump to TOC

#### Procedure, continued

Step	Action
46	Select a program from the <u>All Programs</u> option in the <b>Program</b> field.  <u>Note:</u> The <b>College</b> , <b>Level</b> , and <b>Degree</b> fields may be filled in for you based on the program selected. If not, select values for these fields.
47	Select a campus code in the <b>Campus</b> field.
48	Enter a field of study priority number in the <b>Priority</b> field.
49	Access the Field of Study block.
50	Select <i>Major</i> in the <b>Type</b> field.
51	Select a status in the <b>Status</b> field.
52	Select a major, minor, or concentration code in the <b>Field of Study</b> field.
53	Click the <b>Save</b> icon.
54	Click the <b>OK</b> button to acknowledge that the records have been saved.  <u>Result:</u> The Communication Plan window opens.
55	Click the <b>Save</b> icon to save the communication plan.
56	Click the <b>Return</b> button.
57	Click the <b>Exit</b> icon.

## Section C: Day-to-Day Operations

### Lesson: Running the Admit Decision Calculation Report

◀ Jump to TOC

#### Introduction

The Admit Decision Calculation Report (SARBDSN) is used to calculate automated decisions based on institution rules. The process selects all application records that match the parameter values. If any of the applications have outstanding checklist items, regardless of their application status, they will not be processed and will have a message associated with them on the report. If all checklist items are received, then the process compares each applicant and/or application against the rules on SAADCSN.

Parameter	Description	Req?
Application Term Code	Enter the term code for AMCAS processing.	Yes
Level Code	Enter the level code for AMCAS processing.	Yes
Last Electronic Submission D	Enter the date in DD-MON-YYYY format.	Yes
Audit/Update Indicator	Enter A for an audit report or U to update the database.	Yes

6	Perform a <b>Next Block</b> function.
7	Click the <b>Save</b> icon.
8	Click the <b>Exit</b> icon.

## Section C: Day-to-Day Operations

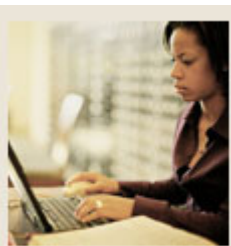

### Lesson: Summary

◀ [Jump to TOC](#)

#### **Let's review**

As a result of completing this workbook, you have

- run the Admissions Decision Criteria Report
- admitted an applicant
- withdrawn a student
- assigned a decision code
- run the Admissions Decision Calculation Report
- rolled prospect information to Admissions
- performed a quick admit
- run various reports and processes related to Admissions.

## Section C: Day-to-Day Operations

### Lesson: Self Check

◀ [Jump to TOC](#)

#### **Directions**

Use the information you have learned in this workbook to complete this self-check activity.

#### **Question 1**

What form do you use to add a student to the system as quickly as possible in order to be scheduled for classes?

#### **Question 2**

How do you roll default prospect data to the Admissions module?

## Section C: Day-to-Day Operations

### Lesson: Answer Key for Self Check

◀ [Jump to TOC](#)

#### Question 1

What form do you use to add a student to the system as quickly as possible in order to be scheduled for classes?

**The Quick Entry Form (SAAQUIK).**

#### Question 2

How do you roll default prospect data to the Admissions module?

**Prospect data is rolled to the Admission module on the Admissions Application Form (SAAADMS) using the Prospect Information Summary option.**
