Status of the EIS Project

Report to Steering Committee and Functional Sponsor Leadership

Education Technology Services

We Are at a Critical Juncture Of The Project

- Successful completion of the Forum data gathering portion of the project.
- Team spirit is high and is working toward the critical goal – determining the best fit requirements of the EIS package.
- Entering a critical phase of the selection project – decision formulating, selection criteria, schedule arrangements.
- What we do next will impact the final outcome of the selection of the EIS system.

What Is Ahead
