

ID Card/Pay To Print Meeting Agenda

July 31, 2013

Agenda

1. Review ID card specification and ePrint screen layout changes (Susan)
2. Pat Hyland's drilling agenda

In a conversation with Hector, we chatted about what to do when a student is entitled to a refund but doesn't have a bank account and really just wants to move the money forward to his/her new card.

I'm perfectly OK with creating a mechanism for that to happen – just not sure what that looks like. Here are some options that come to mind:

- a. Allow us to send the vendor a check on behalf of the student
- b. Allow us to add money to the student's cloud account via some sort of EFT
- c. Figure out how some Pre-Paid cards with random values can be issued

Should we discuss this at the next dental appointment, oh I mean Print Meeting?

3. Review 1st pilot test issue list and reach consensus (print out)
4. Review 2nd Pilot preparation status
