

# Fujitsu Planetarium at De Anza College

## *Become a Star in our Universe!*

With the state budget cutbacks, our local schools are reducing the number of field trips they take each year. This year, some area schools currently lack any funds to provide this amazing experience. Without your sponsorship, K-8 students from Title I (economically disadvantaged) schools will not be able to attend planetarium astronomy field trips to supplement their schools science curriculum and be inspired by this remarkable place.

## *You can help!*

The Fujitsu Planetarium will offer free admission to these students if we can collect \$5 per student to cover our costs of operation on field trip days. You can sponsor one student for \$5, a group for \$50, a whole class for \$150, or fill the Planetarium with students for \$700.

Your sponsorship can make a significant difference in the life of a K-8 student by exposing him or her to the world of astronomy and space science. Please help bring students back to the Planetarium, and inspire the next generation to aim for the stars.
